## **8. Please Note – Shrewsbury Youth and Family Services Annual Appeal**

In 2021, a national study revealed that 44% of adolescents had experienced persistent sadness or hopelessness in the prior year, and nearly 20% seriously considered attempting suicide. The US Surgeon General released a public health advisory regarding youth mental health as a result. Similarly, mental health issues in older adults continue to be underestimated and brushed off as a “normal part of aging.” Currently, two-thirds of seniors with mental health problems do not get the treatment they need.

Please join us to help Shrewsbury Youth and Family Services work towards its mission of strengthening the emotional and social well-being of individuals and families through equitable access to mental health counseling and social services programs.

SYFS is working tirelessly to ensure that people of all ages can access the services they require when the services are needed. SYFS has developed innovative programming to help limit time spent on waitlists and offers support to people when they are hurting. Our staff have expertise in supporting individuals and their families across the lifespan. We are dedicated to forming relationships with our clients and removing barriers to ensure that they continue to grow and live meaningful and fulfilling lives.

Please [click here](#) to donate to Shrewsbury Youth and Family Services. Your generosity and support is needed this year to ensure children, youth, families, adults, and seniors receive the services they need to provide them health, hope, happiness and opportunity.

## **9. Please Note – Shrewsbury Youth and Family Services Holiday Support Group**
