What's a Listserv?

A listserv is a way to use a single Internet e-mail address to send e-mail to and receive e-mail from many other individuals who share a common interest.

Mass Family Voices Listserv

The Mass Family Voices listserv is an on-line forum where families with children & youth with special health care needs and their professional partners can:

- ♥ Share information and resources
- ♥ Ask questions and hear from the collective expertise of our diverse and growing membership
- ♥ Support each other in our advocacy efforts on behalf of children and youth with special health care needs
