

The Mini Warrior Way

Beginning 5 years ago, we have had the opportunity to work with over 300 different children over the years. We have had multiple newspapers' write articles on the clinic, including a front-page article by the Telegram. Every coach is a current or former college baseball player. In the summer of 2015, we had 40 kids sign up for our camps, last summer (2016) we had 334 signups with 85% of our kids attending more than one camp! We focus on teaching the fundamentals of the game in a fun yet competitive environment. From situational baseball to the mechanics of a swing, we promise you that your children will have more fun than they ever have playing the game we love, while learning more than they ever have. It is our goal that your child develops the same passion and love for the game that we have.

I had fun, I learned a lot, and I could see the passion Ryan has for coaching. The kids were tuned in from the start... Ryan has a plethora of knowledge... These camps are necessary. It shows the kids what skills, drive, and determination it takes to get to the next level. To have a child interact with division 1, 2, & 3 college athletes, as well as major leaguers is priceless. The baseball skills, both on and off the field, can't be had anywhere else in this area.
