

Shrewsbury Public Schools “No Homework” Calendar 2023-2024 School Year

- The Shrewsbury Public Schools (SPS) [homework policy](#) states: “It is a shared responsibility between home and school to ensure that students have balance in their lives while pursuing educational excellence.”
- In an effort to promote that balance, the homework policy requires that “...the district will implement a ‘no homework’ calendar that specifies times when homework will not be assigned.” The School Committee has voted to approve the dates listed below as “no homework” dates for all SPS students during the 2023-2024 school year.
- Some of the “no homework” dates correspond with major religious holidays where many SPS students will have religious obligations, but it is important to note that all students will not be assigned homework on these dates.
- In addition to these dates, whenever a student is not available due to participating in a religious obligation in the evening or causing them to be absent from school on *any* date, the student will be provided with the opportunity to make up missed homework and classwork without penalty, per School Committee policy and state law.
