

TECHNOVATION CLUB

NOVEMBER - MAY
TUESDAYS UNTIL 3:30 IN THE DESIGN LAB

Mrs. Avadhuta

Looking to impact your community through STEM? Then, the Technovation club is for you! Technovation is a computer science, business, and entrepreneurship program for girls in middle school and high school. Through a 12-16-week program, participants will work in teams to create an app or AI project that solves a problem in our community, which will be used to compete in the regional Technovation Girls competition.
