

FRITZ DEGUGLIELMO LLC
CERTIFIED PUBLIC ACCOUNTANTS
& BUSINESS ADVISORS

December 17, 2021

To the Board of Directors of
Assabet Valley Collaborative
28 Lord Rd, Suite 130
Marlborough, MA 01752

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Assabet Valley Collaborative for the year ended June 30, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 15, 2021. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Assabet Valley Collaborative are described in Note B to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during fiscal 2021. We noted no transactions entered into by the Collaborative during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of depreciation expense is based on guidelines established by the Commonwealth of Massachusetts for contracting purposes. Management's estimate of the post-retirement health benefit obligation is based on an actuarial valuation, which included actuarial assumptions of returns on investments, inflation, and annual compensation increase rates. Management's estimate of pension on-behalf payments is based on audited plan financial statements issued by the retirement systems. We evaluated the key factors and assumptions used to develop these estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 17, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Collaborative's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Collaborative's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

We did identify two findings reported in the Schedule of Findings and Responses. We refer you to that report for more detail.

Other Matters

We noted during the audit that the Collaborative's warrant process was still delayed during fiscal 2021. The processing of checks and approvals from appropriate levels of management were not impacted. However, we recommend the board of directors and management continue to develop its warrant procedure to obtain appropriate signatures.

We applied certain limited procedures to management's discussion and analysis, budgetary comparison information, OPEB Plan – Required Supplementary Information and pension schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report other supplementary information which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Board of Directors and management of Assabet Valley Collaborative and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Fritz DeGuglielmo LLC
