22	Just started receiving email with meeting schedules for the week	4/29/2020 5:29 PM
23	I think the team emails. To be honestly, I don't check as I am not in 7th grade. It is his responsibility to do his job. If he doesn't there are consequences at home. Unless a child has a disability, then I don't think parents should have to check or help with assignments for a 7th or 8th grader; it does not foster independence or a sense of responsibility. If they don't learn it at Oak then they never will. They will forever be dependent on parent support. This is the time to let you child fail/make mistakes- and deal with the consequences	4/29/2020 5:09 PM

Oak Middle School Remote Learning Survey – April 2020

#	RESPONSES	DATE
1	Hard for IEPs I think that as a parent with a child who has an IEP has been extremely challenging on my daughter to fully adapt to remote learning and I've seen lots of frustration on her part when she is unable to complete her work especially math which has always been a struggle to her. Thank you all from the bottom of our hearts of all you have done given the circumstances.	5/4/2020 8:40 AM
2	Hard to know what is reqd Ind contact from T more online time Firstly, I want to commend the district and teachers for adapting to a new and challenging situation. And you have done it well. Generally, I feel the communication of what is "expected" or "Required" has not been consistent in communication between the principal, the curriculum coordinator and the teachers. I believe that a more interactive learning experience would be better (zoom or other video/conference calls) with actual teaching and interaction/exchange. Also, it would be useful (and motivational) if the teachers would reach out to students individually and engage with the students. In the 8 weeks since remote learning, my child has not had any teacher send him a personal note - either via e-mail or schoology. A 10' face-to-face zoom meeting with the team teachers with each student would be helpful	5/3/2020 11:10 PM
3	More REading A little more reading	5/3/2020 10:58 PM
4	This is new to everyone so it's hard to say how one can improve when everyone is learning how to do this and constantly changing. I would be worried if i didn't see changes so I'm happy with how the teachers and staff are continuing to evolve in such a bizarre situation	5/3/2020 10:54 PM
5	Longer school day needed More than 1 subj per day I think the schools have done a good job in a very short period of time to put something together to continue learning. It does seem like each week could be built upon so that more effective learning could take place instead of only reviewing work that's already been done. The school periods could be longer for middle and high school-aged kids who can mostly work independently, and it seems like more time could be taken to schedule more than 1 subject to be "taught" each day.	5/3/2020 10:30 PM
6	Hard to know what is reqd Overwhelmed by Communic Our children have been mostly independent with both their regular school assignments and virtual school assignments- I have been required to continue to work as an essential employee in the hospital and my husband works remotely - he has to supervise and support our fourth grader. I would just ask for students to be held accountable- at this point they should know what is expected. It is helpful to get updates with the expectations from the teachers so that as a parent we can use that to check on their progress. Admittedly, for us, having 4 children, it can get overwhelming to receive regular communications from teachers, principals, & SPS general communications. It would be helpful to have the generalized emails condensed and inclusive of all schools and grades that way as a parent of children in multiple schools, all the information is in one email. Parents of only child, or one school can read the info related to only that child and disregard other info, but those with multiple schools for the children would have all info in 1 email. Also when teachers send an email identify what grade they reach so we as parents know which child it pertains to. We appreciate and understand all the efforts being put forward by the teachers and administrators to continue to provide the students with high quality education and support and understand and appreciate that as teachers and administrators you also have families and obligations beyond remote teaching. So THANK YOU! We have encouraged our children to remember, respect, and appreciate that their teachers not only care for them as students, but have families of their own and many other obligations beyond teaching.	5/3/2020 9:42 PM
7	No comments	5/3/2020 9:40 PM
8	Cant see assign/fdbk When my child has comments on an assignment each teacher puts the comments in a different location	5/3/2020 8:48 PM
9	more online time Thank you for all you have done for the kids. I realize remote learning must be difficult for all. I do wish the live sessions could be live teaching, rather than a check-in to see if students have questions. This may be the plan as the weeks go on, but I feel they would benefit from longer than 20 min zoom sessions like the elementary kids do.	5/3/2020 8:44 PM
10	Cant see assign/fdbk My child has been having trouble submitting assignments and is unaware they haven't been received until I get my weekly schoology update	5/3/2020 8:21 PM
11	Need Schedule earlier I first want to thank my child's teachers as I know that they have been working very hard to create and deliver remote learning activities. I also appreciate the weekly schedule out as it is a huge help in helping to organize my child and to check assignments. My	5/3/2020 7:50 PM

Oak Middle School Remote Learning Survey – April 2020

only suggestion would be for the schedule to be sent out either Sunday evening or early on Monday. This would allow us to coordinate all of families' zoom meeting schedules.

12	COnfusing assignments more online time Remote learning is good. Thanks to the teachers' efforts to conduct live sessions. I think they are very short though. Would be good if they were longer like for 3 hours/day so it feels like regular school to certain extent. One concern is the assignment submissions. It looks like it's confusing for students since there are different deliverables for different subjects at different locations. The kids probably need more direction on this.	5/3/2020 7:32 PM
13	I'm satisfied	5/3/2020 7:11 PM
14	Doing a good job.stay safe	5/3/2020 7:01 PM
15	more online time I appreciate all of the efforts the educators are making. I do think there can be more team time and learning of new concepts. My oldest child is on an IEP and we don't feel like they are getting a comparable level of instruction.	5/3/2020 6:55 PM
16	Diff to motivate my child it is obvious that the teachers care and are trying for a good experience. it is just hard to motivate my 8th grader to continue doing her work.	5/3/2020 6:55 PM
17	MORE parent interaction This is more of assignments schedule, not actual class session kind of schedule. I hope to see more interaction with parents.	5/3/2020 6:42 PM
18	more online time start earlier in the day Is submitting assignments learning? And why are meetings scheduled at lunch hour? Parents need to use their lunch hour to ensure kids have eaten but there is a meeting where nothing of value is discussed at that time	5/3/2020 6:42 PM
19	Question? Will there be any year end celebration and recognition for 8th graders at the end of the SY? A car parade perhaps? Will the typical 8th grade awards/recognitions be given?	5/3/2020 6:28 PM
20	too much work I see my child doing the assigned school work ALL day/5 days per week (sometimes on the weekends). I believe that the amount of the given work is way to high as having kids learning from home doesn't need to mean that they need to spend ALL of their time studying... They need time for relaxation, extra curricular activities, hobbies and special interests.	5/3/2020 6:16 PM
21	more online time I believe that a bit more work, say another 30 min, would be be beneficial. The zoom credentials are difficult to find sometimes, I appreciate it when teachers repeat these links.	5/3/2020 6:15 PM
22	more online time overlapping classes I think the zoom calls need to be longer, like 45 minutes, especially for teaching new material and taking questions. 20 mins isn't enough. Also, the teachers from the secondary courses need to check with team teachers so the zoom calls don't overlap or fall to close. If ELA is 11:30-11:50, chorus can't be at 11:50 because no one will be on time.	5/3/2020 5:54 PM
23	I am grateful for and impressed by how quickly and effectively the school and the teachers have transformed their approach to teaching to address the COVID-19 pandemic.	5/3/2020 5:37 PM
24	Diff to motivate my child The change to completion based grading only has lowered my child's motivation.	5/3/2020 5:21 PM
25	Diff to motivate my child Having the grades be completion based only has lowered my child's motivation.	5/3/2020 5:12 PM
26	too much work My son thinks there is just the right amount of work except for Math. He thinks the amount of work in Math could be reduced. Overall doing a great job!	5/3/2020 5:05 PM
27	Overwhelmed by Communic It works well when all assignments for the week are posted on Monday. I like having an overview for the week. It gets more complicated when assignments are added on other days.	5/3/2020 4:44 PM
28	The zoom Classes are helpful.	5/3/2020 4:15 PM
29	You are doing a great job. Would like to see more routine and visual connection with the classes...so that students are expected to be presentable as if they were at school.	5/3/2020 4:06 PM
30	COnfusing assignments Hard to know what is reqd It is challenging to be on top of what is expected day to day. There is a weekly schedule put out but there are also notifications each	5/3/2020 4:04 PM

Oak Middle School Remote Learning Survey – April 2020

day and at different times of day so you can't just review once in the beginning of the week or beginning of the day. Some of the assignments cannot be viewed in the parent account in Schoology (e.g. google slides) - only in the child's account. I think they have done a good job with such a radical shift in teaching and I appreciate the tweaking that is happening each week.

31	more online time We recognize the huge task for teachers and administrators to teach remotely, and appreciate everyone's efforts. But 20 mins per subject per week is not nearly enough learning time.	5/3/2020 3:56 PM
32	more online time I believe my child would benefit more Zoom classes and more work	5/3/2020 3:55 PM
33	Cant see assign/fdbk Hard to know what is reqd We are on board with what is offered, and appreciate all efforts to make this work! - I would really like to see teacher feedback on assignments, since nothing is graded. I want my son to see when he is achieving and when he needs pushing. (Because coming from mom is NOT the same.) - I would like more zoom classroom opportunities for direct teaching. - I would like to know what the standard 8th grade topics and benchmarks are, so I could supplement at home. I am very lucky to be a stay at home parent anyway, and know not everyone can "add on" at home, but it would be nice to know what the normal end of year goals/standards are. - I am looking at Schoology as best I can to see what is coming up, and to see what has been submitted. I find that some things are blocked from me, presumably because I am not the student. Also, I cannot convince Schoology that "my school" in my profile is Oak, not Sherwood. Oh well!	5/3/2020 3:32 PM
34	more online time I feel that the class time should be extended by 20 more minutes. Also, the classes should start earlier in the day.	5/3/2020 3:12 PM
35	more online time More than 1 subj per day 20 minutes of live work in each subject per week for a middle schooler who will be entering high school next year is not nearly enough. They should be expected to be live with teachers in each of the core subjects at minimum once per day.	5/3/2020 3:12 PM
36	Students are able to work at their own pace which is something that is very helpful because each student has a different time that they are most productive in.	5/3/2020 3:11 PM
37	Not enough Indiv support My child is special needs. Not enough has been done for them.	5/3/2020 3:05 PM
38	need more required work Everything should be mandatory. Hard to get mine to do something 'optional'.	5/3/2020 9:18 AM
39	More feedback on assignme Not enough Indiv support I think Zoom is a good feature, however there is still a lack of complete one-on-one experiences. I think my child would benefit greatly from having feedback other than the comments that they get on their work. But the teachers are really prospering in making sure everyone is getting a good experience.	5/2/2020 10:06 PM
40	I believe remote teaching is valid, given the situation we are going through, but both my child and I are eager to return to classes in person, which is much more attractive.	5/2/2020 11:33 AM
41	more online time need more required work I think that the public school system has been faced with an unbelievable task with remote learning, so I am not complaining. My son could be challenged more with the amount and difficulty of his assignments but I understand why that is not happening at this time.	5/2/2020 9:07 AM
42	need more required work Some teachers are doing a very good job providing education, assigning homework assignments, and making sure that their students are staying engaged and learning. However, some teachers are not putting enough time and effort to teach and keeping students engaged by providing enough learning material and assigning homework.	5/2/2020 9:01 AM
43	Cant see assign/fdbk More feedback on assignme Not able to view submitted assignments in parents schoology account. Not sure teachers checking quality of work and follow up with students.	5/2/2020 6:57 AM
44	more online time I want to commend the teachers for there efforts during this situation. I would love, however, if we could have longer zoom classes per day.	5/1/2020 11:44 PM
45	Not enough Indiv support Please chat with my child more times	5/1/2020 9:11 PM
46	More feedback on assignme Thank you for enabling the remote learning option. Would like to see teacher feedback for assignments on how to improve.	5/1/2020 8:28 PM
47	overlapping classes Hope the schedules don't overlap with other classes. Ex. ELA goes	5/1/2020 5:32 PM

Oak Middle School Remote Learning Survey – April 2020

overtime and conflicts with chorus.

48	more online time need more required work Remote learning experience has come really far. I think more online collaboration and conferencing for small groups would enable better engagement and increase motivation level. This can be achieved by placing 3-4 students in a group so they can work together on assignments, projects or simply to study together as a team using online collaboration platform.	5/1/2020 2:45 PM
49	My child is feeling challenged with the work. She is struggling with this platform of learning and misses her teachers and the interactive learning in a classroom environment.	5/1/2020 2:26 PM
50	more online time If the live interaction time between student and teachers could be expanded beyond just asking questions , that might help.	5/1/2020 2:16 PM
51	more online time Some concepts such as math need more remote time to teach compared to other subjects that you can read items on your own	5/1/2020 12:56 PM
52	more online time need more required work I am thankful and appreciative of what has gone into quickly making the pivot to remote learning. What has gone well is the way they communicate what's due for the week. They have done a good job and I have utilized some of the tools 8 Green shared with my student , for my son who is at Sherwood. Areas for improvement 1. I would like to see either a team Zoom at the beginning of the week or short recorded messages from the teachers summarizing what the week will look like in terms of work, what the topics are, etc. Something short would do. 2. More live or recorded lessons so kids can keep moving forward. Zoom has a recording option that thus far doesn't seem to be utilized. Recorded lessons could also be an option for elementary level kids. 3. More challenging work. These kids are going to high school next year. My daughter is able to get through all the work by Wed. in many cases. If the problem is that not all kids can get access electronically, then add optional extra work. Teaching and planning to the minority is also not productive for the majority and will only hurt our kids overall. Maybe have a small subset of teachers who figure out that challenge.	5/1/2020 12:49 PM
53	more online time Early on the teachers communication was unclear and ineffective. I will say they were very responsive to emails. 20 minutes to check in per class is not enough, not effective and there is no learning/instruction during these times.	5/1/2020 11:10 AM
54	COntusing assignments Sometimes students have tech issues, wifi not working, schoology down, that prevent them from submitting work on time and when they go in to submit it when the issue is resolved, they get a message that they can no longer submit assignments. That elevates levels of frustration and then they start reasoning, why bother finish the work if it does not matter in the end.	5/1/2020 10:32 AM
55	more online time need more required work Conducting 20mins of live class time is great, but not enough to teach new material. Not sure why live classes can't be held for 60-90mins a day.	5/1/2020 8:22 AM
56	Cant see assign/fdbk 7 red teachers are very tech savvy. The hyperdocs and Google classrooms are well thought out and often have video instructions. They also provide a lot of guidance thru email and Schoology updates. The one thing that would make it easier for us, is to have all assignments trackable in Schoology. Sometimes my daughter thinks she's done, then realizes that she missed something. I can't help her if an assignment isn't tracked in schoology. First world problems. Wouldn't mention it except for the specific question on how to improve remote learning and I've seen some teacher updates in schoology indicating some assignments have a low turn in rate.	5/1/2020 8:05 AM
57	More asynchronous work In our household with 3 school age children and one parent working from home is very hard to be available for live meetings.	5/1/2020 7:19 AM
58	Diff to motivate my child My daughter says the zoom meetings are awkward because there are so many kids in the meeting and she can't see everyone. That's her perspective. Maybe it's just her age? As for me, I am grateful for those zoom meetings. I think it's important in this time of "social distancing" for the kids to connect with their classmates and teachers via technology. I think the school is doing good job. This is an unprecedented time. Hopefully as we move forward all the kinks will get worked out. I can see that we might be in quarantine again next year, or during the next pandemic, so I think it is important for the schools to figure this out. The schools are doing a good job. I'd like to give a shout out to math teacher Courtney Mulcahy for her reassuring daily videos in the first two or three weeks of Quarantine. For any kids that were feeling anxious, those videos must have been a lifeline.	5/1/2020 7:13 AM

Oak Middle School Remote Learning Survey – April 2020

59	need more required work We are grateful for the hard work our educators and administrators are doing at this very challenging time! I know many families are feeling maxed out, especially teachers who have their own young children. I think by grade 7, students can largely be expected to handle and complete their own work, asking questions of parents when necessary. Given that older students do not generally require as much supervision as younger ones, I feel the workload could be a little more for middle school and high school than it has been. I am sure other families feel it is too much as is, and you cannot possibly be all things to all students and families! My middle schooler is also an efficient worker, which is not true of all students, including my methodical high schooler.	4/30/2020 10:46 PM
60	more online time At least a couple of meetings/discussions a day so that the kids get a chance to discuss as a group and learn from each other as questions are asked and answers/clarifications provided.	4/30/2020 9:52 PM
61	more online time I appreciate the work given, but I think more live time with teachers would be more helpful throughout the week. It would engage my child more if he had more live time with the teachers and students.	4/30/2020 9:07 PM
62	need more required work My daughter complains that the zoom calls are a waste of time and there is nothing done during them (depending on the teacher). I don't understand why many of the teachers are not teaching. If they were actually teaching, once a week for a half hour wouldn't cut it. Schoology is too flooded- she has a hard time keeping track of everything.	4/30/2020 8:35 PM
63	more online time more rigor need more required work I would like to see more work on a daily basis and with increased rigor.	4/30/2020 8:06 PM
64	Schoology problems How can we get a notification on daily assignments that was provided and submitted ? Is this something that we can setup to be notified in Schoology? Thx	4/30/2020 6:37 PM
65	Schoology problems Tech problems Gave zoom a lower rating because she has been struggling to access her account. There's a ticket in to fix the problem.	4/30/2020 4:00 PM
66	more online time Teachers have been great communicating what my child has missed for submitted assignments. Time for each "class" via zoom is a bit too short as the children all log in (maybe a few mins late due to having other office hours or classes scheduled) and the discussion/class time is over before you know it.	4/30/2020 3:58 PM
67	More asynchronous work Overwhelmed by Communic Teacher communication of assignments is effective and clear. I like the Monday email with the attached assignments for the week. My child is not a fan of Zoom as a platform for learning. He feels very uncomfortable being on video and audio. That said, he is working hard to complete all required assignments, but is not joining the Zooms. He would rather access the teaching asynchronously. Also, there is an overabundance of communication among students in Schoology, so it takes a bit of scrolling down to locate the assignments. Perhaps pinning them to the top for easy access?	4/30/2020 3:44 PM

69	more rigor need more required work It seems a lot of the assignments are not challenging, some classes the work takes less than 10 minutes to complete. And just a note, my son is not a "4" student.	4/30/2020 2:24 PM
70	Diff to motivate my child The program itself i have nothing to complain about, its just hard to keep on top of my son since i have been workin 45/50 hours a week, I barely have employees during this difficult time, and trying to stay on top of remote learning is been a challenge, but you guys are doing a great job!	4/30/2020 12:34 PM
71	more online time I think that the zoom calls are very effective in order for the students to be able to ask questions and interact with others.	4/30/2020 12:25 PM
72	Just want to thank all of the teachers for all of their hard work. We really appreciate all they put into this, and we are thankful they are keeping positive attitudes for the kids. Great job! Stay safe.	4/30/2020 12:16 PM
73	Its already good in my opinion. Thanks.	4/30/2020 12:09 PM
74	more online time Some subjects definitely need more face time. for example, The Shakespeare unit is daunting and needs class time. I also feel the foreign language needs class time. There are opportunities for extra foreign language activities though.	4/30/2020 11:54 AM

75	Tech problems The biggest challenge we're having is ensuring my child can get onto his schedule Zoom "live" meetings. The links that are sent do not always work.	4/30/2020 11:51 AM
76	Requiring subjects such as Art is a little tricky, under the circumstances it is requiring additional trips to stores to gather supplies we do not have on hand.	4/30/2020 11:06 AM
77	more online time I think more lively interaction would help but given the circumstances understand not everyone always wants to be on screen all the time	4/30/2020 11:03 AM
78	overlapping classes Each teacher should have a different day so there are not competing zooms. Appears that math/science and ELA/social students share zooms and student has to choose which one to go to.	4/30/2020 10:56 AM
79	Remote learning is proceeding smoothly for us!	4/30/2020 10:39 AM
80	MOre parent interaction Zoom/"IT" issues with connectivity, freezing, scheduling Homework is too easy, low workload, not frequent enough Grading change to "0" or "1" removes any student incentive *Would like superintendent more frequent feedback & add'l surveys to parents re: what 20/21 school year is expected to look like/should look like *Would like to address how funds are being reimbursed for misc (fieldtrips, carnival, etc) These are difficult times in uncharted waters, but this is not adequate preparation for students and the rigors of high school	4/30/2020 10:34 AM
81	overlapping classes The team learning schedule for Zoom meetings is often confusing. It does not follow the district guidelines, and often multiple teachers will have simultaneous Zoom meetings at 11:30, making it confusing as to which Zoom meeting the student should attend.	4/30/2020 10:18 AM
82	Longer school day needed more online time More REading More than 1 subj per day need more required work This is no way is a criticism of the teachers. I think they are doing a terrific job despite these very challenging circumstances. My criticism is directed toward the administration. I believe only requiring three live lessons a week, is ridiculous and allowing posts to discussion board or responding to a video should not count toward as a live lesson. They should be having daily live lessons. I think the education my child is getting remotely is not adequate and believe the district ought to be requiring live lessons for all students on a daily basis. While I can appreciate the district's need to try and please all families and respond to everyone's needs it is simply not realistic. As a result, I believe the education my children are currently receiving is not adequate and every week that goes by is a lost instructional opportunity. Again, let me reiterate, this is not a criticism of teachers. I think they are trying their very best to engage and stay connected with students. Clearly, my expectations are not in line with the school administration's expectations and I will have to try and find ways to supplement my children's education as a result. I am disappointed to say the least.	4/30/2020 10:10 AM
83	The 7 Red teachers contact with kids daily connections and give mini-lessons and are available to answer the kids questions. I feel this model is working well for my child.	4/30/2020 10:09 AM
84	With the amount of time the school had to develop this system, I think they are doing a great job.	4/30/2020 10:02 AM
85	More than 1 subj per day need more required work With the school closed for the year, I think, each teacher should do a zoom session every day to teach the curriculum exactly like they do in regular class rooms. So that the 8th grader is well prepared for high school.	4/30/2020 10:00 AM
86	I really don't know what is and what isn't working. I do know my son has missed a lot of assignments, so trying to figure a best way to make sure he is doing his work and getting it turned in.	4/30/2020 9:59 AM

95	more online time My 8th grader is doing well overall. I wish there was more zoom learning/teaching time. His special ed teacher has been amazing at supplementing help and having zoom hours and responds quickly and with support.	4/30/2020 8:59 AM
96	In general, going well.	4/30/2020 8:44 AM
97	Live lesson later in day Prefer live interactive time at the end of the day instead at 11:30am. Students who do there work in the morning, have to stop at 11:30am to do a 20 minute zoom call, which interrupts studying/homework (flow) productivity.	4/30/2020 8:42 AM
98	Hard to know what is reqd overlapping classes Tech problems I think the teachers are doing a great job! What a difficult situation to navigate. I'm just a little unclear about the zoom meetings. Are they mandatory? Some meetings are scheduled at the exact same time. My son has to choose which one to go to. He's had trouble getting in to some meetings, which clearly is just technology. Perhaps a short quiz, paper or project to test knowledge. We were blind sided by COVID-19 and the district did their best to put together online materials and make sure kids had tech and wifi access. great job. However, there are so many folders/areas they need to look at for the assignment that sometimes it's overlooked. Teachers have had patience but would love to see just one area for all assignments. Work given on Monday and all due on Friday. 114	more online time Thank you to all who have rallied to do what ever they can to make remote learning possible. I don't have the expertise that educators have to get my child to engage in the work at home. As much as she doesn't want to do the work and the zooms I feel like the teachers have more power than a parent to hold them accountable. My voice seems to just be a nag. When teachers ask things of students in class the kids will often attempt to please and succeed. When it's mom and dad they give excuses, wine and complain. That's the #1 reason why I'd like more "live" classes like zoom as opposed to just self work at home. I work in a field that requires lots of continuous education. Our place of employment requires tons of online requirements. I am totally guilt of scrolling thru the slides and not quite learning anything. When I go to conferences I get 100% more out of them. I think the same for home learning. It's just not the same. I'd like to see Some actual live classes with the teacher doing a demonstration and calling on kids to engage instead of just a check in. My child doesnt speak up at a check in.	4/29/2020 10:08 PM
115	Ind contact from T I think the teachers are doing the absolute best that they can do & I so appreciate all their efforts, with teaching as well as trying to connect personally w students. 132	Very impressive work by all the teachers and staff.	4/29/2020 8:04 PM
133	More asynchronous work First, thank you all for working so hard to figure out how to keep classes moving forward during the pandemic! We are fortunate! It is important to have a math lesson accompany the new concepts. I am relying on my older kids to teach the math. My HS student's teacher video tapes herself doing the lesson (not on a live zoom call) and then the students can review it on their own time. They can also replay a piece if they need to hear it again. This would be helpful at the MS level. The math zoom call is currently not a lesson in math but more of a general check-in with students. This is important too but there needs to be more focus on introducing the new concepts if we are moving the curriculum forward. The weekly class schedule and expectations are clear. Project based learning was well received. Thank you - keep up the great work!	4/29/2020 7:54 PM
134	more online time need more required work My child is feeling that some subject workloads are manageable while other subject areas are more challenging remotely. Also, I understand that the Live Zoom times are optional and they focus mainly on student initiated questions. However as such my child does not want to participate. It would like to see the Live times somehow more engaging so he would be more interested and connected. I do understand that they cannot be mandatory due to different family circumstances.	4/29/2020 7:54 PM
135	N/A	4/29/2020 7:53 PM
136	More asynchronous work There is no substitute for in person learning and this is challenging on some days. My child is often frustrated and overwhelmed by the assignment, especially when an assignment contains many parts. Math is not her strength and having to learn concepts independently is not ideal. I applaud the work the district has done to get remote learning up and running so quickly and I am in no way criticizing or minimizing the effort. I know that there has been a great deal of thought put into making this mode of learning happen. It is most often the way assignments are organized and presented that is causing the most anxiety. Also whether or not the zoom live learning is mandatory or optional. For some reason my child detests having to attend the zoom meetings. She would much prefer to just do her assignments and not have to connect with anyone through zoom.	4/29/2020 7:48 PM
137	Diff to motivate my child It is difficult to get my child to get engaged and complete assignments.	4/29/2020 7:44 PM
138	too much work The majority of the work is appropriate for out of school learning with the exception of ELA. ELA is not only a challenging concept, Shakespeare, for middle school students to engage in, but the amount of work seems excessive. My child spends much more than the recommended amount of time trying to complete/understand the work being sent.	4/29/2020 7:42 PM
139	Thank you so much to all the teachers and admin for making it possible for my child to continue online learning. It is people and community that make it happen. We are so grateful for each and every one. Thank you!	4/29/2020 7:32 PM
140	too much work I think there are too many required assignments. It would be better if more were noted as optional and we weren't getting multiple assignments in each class so often.	4/29/2020 7:32 PM
141	you guys are doing great - thank you for all your efforts. I know it's not easy to transition things. My kids are fine. I worry about those who are ESL or have IEPs, or whose parents aren't able to assist like we are.	4/29/2020 7:32 PM
142	More parent interaction I think my child is doing his assignments and trust that my son is on track. Don't hear anything from the teachers so I should assume no news is good news.?	4/29/2020 7:30 PM
143	more online time I think there should be zoom classroom for ELA, Math, science & social studies everyday. Just like it is taught in class but via zoom.	4/29/2020 7:27 PM
144	more online time overlapping classes More facetime with teachers would be very helpful. Many of the office hours for the teachers overlap in times and days making it a challenge to seek teacher support during the week.	4/29/2020 7:26 PM

Oak Middle School Remote Learning Survey – April 2020

145	more online time I believe that more live sessions with teachers would be beneficial. The Zooms that have been conducted thus far have not been interactive. Much of the work that has been assigned is the student doing individual learning; the teachers are not instructing the students.	4/29/2020 7:25 PM
146	more online time Consider using break out rooms during live classes so the kids can interact in smaller groups and make progress on something together.	4/29/2020 7:20 PM
147	I would just like to say that the teachers on 8 Gold are wonderful. They are here for my son through emails we send and zoom question and answer times and I understand how hard they are working to help our kids!!!	4/29/2020 7:07 PM

149	MORE parent interaction daily emails from teachers are very helpful and get everyone on schedule to do the assign work	4/29/2020 7:00 PM
150	Obviously we miss school but 8 Green is fabulous and my daughter loves her team and her whole experience at oak. sad to say goodbye like this. Also will yearbooks be printed. I realize that is trivial but just wondering! thank you for everything!!	4/29/2020 6:56 PM
151	8 Gold teachers are very organized and communicate weekly with a schedule of what is due and when, also calling out Zoom calls etc. This makes it easy for me to check in on progress and ensure that things get done.	4/29/2020 6:51 PM
152	Diff to motivate my child I'm incredibly grateful for all the effort the teachers on 8 Gold have put into remote learning. Their newsletters and messages home since March 12 show a great effort to keep students and families engaged. There's no way to replicate the rigor students would have in the classroom so my satisfaction or dissatisfaction isn't due to their effort but rather with what can truly be accomplished via remote learning. I truly question whether the effort by teachers and students is really worth continuing until the middle of June. The longer this goes on, the harder it is for my student and even my family to stay meaningfully engaged, despite all the work teachers are doing. I see that becoming a bigger struggle over the coming weeks.	4/29/2020 6:47 PM
153	more online time need more required work Hi, I am seeing lots of towns having "required" zoom calls for each class all week. I would love more school time and teachings in each subject if possible. There is way too much free time all day long. Help!	4/29/2020 6:47 PM
154	CONfusing assignments Remote learning and lack of preparedness by the school systems has caused learning to be very stressful. Monday could be online lessons for every class. Focus on teaching concepts for week and explanations of assignments due through out week. Wednesday checkin options (already scheduled) Friday Final review of weeks learnings and last day to submit assignments.	4/29/2020 6:46 PM
155	Great work in these difficult times!	4/29/2020 6:44 PM
156	more online time I think you guys are doing a great job given the unprecedented situation. I originally thought it was going to be 9-12 per previous emails - which would have been awesome! We appreciate your efforts.. just wish there was more time allocated per class. Thank you very much for what you are at least doing now. Stay safe:-). Thank you!	4/29/2020 6:42 PM
157	more online time need more required work I understand that this is new to all of us. The amount of assignments are only 1-3 hours. Mainly 1.5 a day. More opportunities to connect with teachers, more work and most of all make sure that they are prepared for HS. My daughter's math teacher decided not to cover a topic and I am sure she will behind in her honors classes. You are doing the best you can with such short notice but don't skip topics that will hurt them next year.	4/29/2020 6:41 PM
158	more online time I wish that there were longer zoom sessions at the beginning of each day to teach the students more of what they are are required to do for homework during that day. Some of my friends children In other states have more specific school such as 11 to 2 each day with more zoom scheduled classes. Don't get me wrong, my daughter seems to be doing her homework and submitting it with not many issues at all, but I wish there were more zoom teaching.	4/29/2020 6:38 PM

163	more online time More than 1 subj per day need more required work Having a school system with iPad access to all Oak Middle School students I would have expected a schedule with interactive (Zoom) remote learning each day for each subject. I feel that the school schedule should have remained the same as if the students were at Oak.	4/29/2020 6:23 PM
164	CONfusing assignments Diff to motivate my child Overwhelmed by Communic It is helpful when teachers email all of their expectations for the week on Monday and put all of the work into a central location such as a weekly Google Slide. Thank you! Checking emails and updates daily from every teacher can be overwhelming. Sometimes teachers post several updates a day and others don't post until after 2:00, which makes managing the day a bit tricky. For some students, transitioning from one subject to the next in a less structured setting can be difficult. I wonder if moving to a model where all work for each subject is assigned on a designated day rather than spreading it out throughout the week might help (e.g. M - ELA, T - Math, W - SS, Th - Science, Fr - AA/Languages). Lastly, I greatly appreciate all of the work that teachers are doing to create meaningful assignments and connect with students. I'm just not sure that Zoom meetings being mandatory is effective for all. Having office hours where students can ask questions if needed is wonderful, but some students have a lot of anxiety around joining those meetings and would much rather spend the time getting work done.	4/29/2020 6:22 PM
165	more online time start earlier in the day Schedule should be during the morning instead of during lunch hours. A morning team time daily to layout the days schedule. Quizzes and live sessions are very good to keep kids engaged.	4/29/2020 6:17 PM

168	1. I'm concerned about the security of using Zoom. 2. It seems to be very challenging for the teachers to stimulate students' unique thoughts, so the students are guided to learn "what" to think instead of "how" to think. 3. We are appreciative to the whole school system's efforts to keep our students learning!	4/29/2020 6:04 PM
169	need more required work I think he could have more work.	4/29/2020 6:04 PM
170	Cant see assign/fdbk Schoology problems I strongly believe that "live" interactions are working well. I only wish I was able to access my child's assignments easier. I am familiar with Google Classroom. Schoology to me is a lot more difficult to navigate. Overall, I applaud all the teachers/faculty and administration for the work they are doing under these conditions.	4/29/2020 6:02 PM
171	more online time It is all new for everyone. Having more live online sessions would be helpful..	4/29/2020 6:00 PM
172	more online time I don't think Teachers answering emails should be considered "live" time. I'd rather see that time used for zooms, other interactive lessons. They should be answering emails regardless.	4/29/2020 5:57 PM
173	CONfusing assignments more online time Need Schedule earlier Overwhelmed by Comm unic 1. Emails from teachers are helpful but there are too many of them. Emails need to be organized and combined into a single weekly email with all the information included from all the teachers and organized day by day. I cannot read and follow up on several emails with random information from multiple teachers. Especially when I can't tell whether or not my son saw it and where. Kids should also receive the same email summary so they have a single source of information. 2. Zoom sessions should happen daily and there must be a common schedule. Use a common calendar and share it with students so they can easily see their meetings schedule. Share it with parents, so we can easily see it and follow up. Just like any corporate practice. Otherwise meetings will be forgotten or missed. 3. Zoom sessions should include teaching. Not only questions. 4. Generally speaking this whole situation is lacking organization.	4/29/2020 5:53 PM

Oak Middle School Remote Learning Survey – April 2020

It is hard for students to see their tasks and meetings and almost impossible for me as a parent. There are too many separate emails and communication. Also I never know as a parent whether or not my son sees the same information that I receive and where he can see it.

174	Good experience	4/29/2020 5:46 PM
175	Need Schedule earlier The special/allied arts assignments and foreign language assignments as well as zoom times are not always clear. We struggle to get that portion correct. Otherwise 8 GGreen is pretty clear with their expectations and assignments.	4/29/2020 5:44 PM
176	We like how our student gets all his required work at start of school week	4/29/2020 5:44 PM
177	Hard to know what is reqd more online time MOre parent interaction I will start by saying I have been happy with my student's teachers all year and that has not changed since remote learning began. They are obviously all dedicated and care deeply about their student. I would like to receive weekly or daily emails with my student's live meeting and assignments. Both to help them when they get confused and to ensure that they are completing assignments as well as to encourage my student to complete more optional activities. My student is working through the assignments easily and quickly. I would definitely like to see more small group live interactions as I think learning in leveled groups would be beneficial.	4/29/2020 5:44 PM
178	Schoology problems I was wondering if anyone else is experiencing submission problems. Quite often my son submits assignments but they are not always going through. Is there a glitch in the technical environment that needs to be fixed?	4/29/2020 5:40 PM
179	need more required work We need more work to keep the kids on track of knowledge	4/29/2020 5:39 PM
180	Tech problems We often have difficulty signing into Zoom	4/29/2020 5:38 PM
181	N/a	4/29/2020 5:38 PM
182	Aside from a few troubles with hyperdocs, my child has been able to access and complete work, and teachers have been easily reachable for questions.	4/29/2020 5:37 PM
183	overlapping classes Overlapping office hours are somewhat confusing - possibly avoidable?	4/29/2020 5:37 PM
184	CONfusing assignments For the most part, the amount of work is fine. Trying to juggle the live zoom meetings and their homework, can be a little overwhelming for the student.	4/29/2020 5:36 PM
185	The teachers have been fantastic! They are doing everything right!	4/29/2020 5:34 PM
186	Cant see assign/fdbk It probably would have been beneficial if parents had an opportunity to have a Zoom meeting with the team teachers as a group so we knew right away what our students were expected to complete.	4/29/2020 5:33 PM
187	The teachers are very supportive	4/29/2020 5:31 PM
188	need more required work Would like to see more optional extra work for those who can or want to do it	4/29/2020 5:31 PM
189	Overwhelmed by Communic I feel as a parent with two students I am getting a lot of teacher emails. It's hard to keep track. It would be helpful if teachers put in their signature which class they are sending their email about. Example: Mrs smith , 8 th math . Etc	4/29/2020 5:30 PM
190	CONfusing assignments The data given to the children is well thought of and prepared by the teachers. Thank you for taking the steps to help the kids. As a parent, when I try to help my son to swift thru the data that is available for them , it was a confusing. Each teacher seem to be using different methods to get the data over to them. If it can be standardized it may be helpful	4/29/2020 5:28 PM
191	None	4/29/2020 5:26 PM
192	more online time I believe the teachers are doing an excellent job navigating their way through this unprecedented time. My only concern is interaction is limited, which I understand is difficult to establish, but crucial for my daughter. We appreciate ALL that everyone is doing and are so grateful!!!! I am not complaining only searching for some additional time. Thank you!!!!	4/29/2020 5:26 PM
193	Diff to motivate my child I have appreciated the weekly emails with the assignments and when they are due. It is week 6 Or 7 of this though and my son and I still battle about what "Tuesday" means - is this Tuesday by midnight or Tuesday morning etc... He also refuses to get up for "live time" if it's Anything other than zoom meetings. (example:discussion boards- saying he can do this anytime) and I have no idea if he participates at all. We are also am not clear	4/29/2020 5:26 PM

Oak Middle School Remote Learning Survey – April 2020

how he is doing on the work he does submit. It is challenging for two working parents -one who is a healthcare worker out of the house and another working from home to manage 3 kids learning- especially with a teen who is NOT willing to share his work or go over it. We have appreciated the emails from teachers when assignments are not turned in, and subscribing to the notifications for over due assignments on schoology has helped tremendously as of course our son tells us everyday he is "done" and honestly We think he thinks he is done but forgets things . It would be nice if there was a notification when assignment was submitted. I know that some parents login to schoology as their children but my son will not share his password with me and part of feels the parent site should contain all information I need to support my child! I am assuming the teachers will reach out if the quality of his work is not where it needs to be! The remote learning has caused a lot of stress in our house, as our child is resistant to being put on a structured schedule. I do appreciate the meetings are a bit later , as I can't imagine trying to get him up earlier! This week he has been assigned an aide to go over his workload and get organized with him, and I believe the counselors have started to check in with him. We appreciate all the help and support as continue encourage our son to manage this as independently as possible.

194	more online time need more required work Teachers are approachable to sign up for extra help, but there is almost no live teaching. And when a teacher advertises LIVE learning, but only has them submit online answers or fill out a "wellness" survey... that's not LIVE teaching. They could fill out the survey or post and then have some LIVE teaching.	4/29/2020 5:23 PM
195	7 Blue has been incredibly organized, they communicate just the right amount, and I couldn't be happier with how they have handled this school closure. Kudos to them!	4/29/2020 5:21 PM
196	more online time More zoom call time	4/29/2020 5:16 PM
197	overlapping classes Why are Zoom classes all scheduled at the same time? This makes no sense. He doesn't know which one to go to. It is unwise to make Zoom classes optional if you want 7th graders to attend.	4/29/2020 5:15 PM
198	Ind contact from T need more required work •more time with teachers in classes •more work	4/29/2020 5:13 PM
199	Hard for IEPs Ind contact from T Children on IEPs, like my son, who needs regular check-ins are NOT getting them individually and are far behind in assignments and extremely overwhelmed.	4/29/2020 5:13 PM
200	7 blue has been a great team, very approachable and it has been Abbys favorite ream. They are Great!	4/29/2020 5:09 PM
201	Ind contact from T In a way, I wish there were more structure. I know that would be challenging. My 13yo son is not a "go out and do it yourself" kid but he will complete assignments when required.	4/29/2020 5:08 PM
202	more online time need more required work I feel that the live learning is not enough. At the elementary level the sessions are 30 minutes. These sessions are only 20 minutes and it is only once a week for each of the core subjects. I wish we would consider longer sessions or at least sessions in each core subject at least 2 x week or utilizing some of the "office hour" days for additional live learning. My child is able to finish her work quickly, which I am happy about but I am wondering if not being pushed enough or given enough work.	4/29/2020 5:06 PM
203	Overwhelmed by Communic There's a lot of email. Principal emails are very long, too long I'm sorry. Zooms should be optional, iPads are dying when there's work being done all day and there's 2 zooms its not always doable.	4/29/2020 5:06 PM
204	Need Schedule earlier It would be helpful if we could receive the assignment calendar over the weekend for time management/planning.	4/29/2020 5:05 PM
205	more online time more rigor Limited online meetings. There should be actual teaching not just social checkin and independent assignments	4/29/2020 5:05 PM
206	I honestly don't think that it can be improved. You simply cannot replace the structure, resources, and connection that is provided in a physical school setting at this educational level. I commend the district for trying to make lemonade out of lemons, but sadly, I don't really think it is possible	4/29/2020 5:02 PM
207	Thank you for making this available. you may want to make sure this is working for the Fall/Winter 2020 to 2021 just in case there is another lockdown.	4/29/2020 5:02 PM

Oak Middle School Remote Learning Survey – April 2020

208	More REading Book Club, my child isn't reading enough. I think having teachers choose and assign weekly reading would be helpful.	4/29/2020 5:01 PM
209	more online time i am lucky that my child does fairly well in school that is able to complete assignments and teach himself the material but I feel that time spent with teacher online is nonexistent. 20 minutes a week per teacher is hardly sufficient for a teacher to do a lesson so there is a lot left to the student to do on their own. i do have other kids at other school and the time spent on line with their teacher is deemed adequate for learning.	4/29/2020 5:01 PM
210	I appreciate that the teachers get back to me regarding any struggles my daughter may be having. They go above my expectations on helping her understand. Thank you, 7 Blue	4/29/2020 5:01 PM
211	There needs to be a rhythm to the week that doesn't seem to exist currently. The schedule changes from week to week.	4/29/2020 5:01 PM
212	need more required work Tech problems not enough work and zoom does not work for him. Works for two other kids, one in Floral and one in SHS	4/29/2020 5:00 PM

3	I'm hoping that that after this "experiment" in remote learning is over, that plans could be put in place to utilize this in the future, say, for snow days (or sick days for individual children) so that school days would not need to be made up in June.	5/3/2020 10:30 PM

21	Overall I've been very disappointed in the way Shrewsbury schools handled transitioning to online education. Many towns like westborough switched to online delivery very quickly after schools closed (and they didn't wait State approval) because they already had technology available to go online. It took Shrewsbury long time to go online and during these time students weren't getting any self learning material or assignments via whatever technology that was available (schoolology, email, etc). Teacher should used this time in teaching students how to self-learn...and making sure they are staying engaged in learning. Also, Shrewsbury schools need to invest in technology/infrastructure/training to be able to deliver education more effectively like many colleges have already figured out.	5/2/2020 9:01 AM

28	This is not remote learning. This is curious kids finding things that interest them on line with little guidance or direction.	5/1/2020 11:10 AM
29	Is it possible to have teachers accept assignments submissions in Schoology a little bit after submission date, even if it's marked late?	5/1/2020 10:32 AM
30	Why is there not more live class time? Is there a reason for this?	5/1/2020 8:22 AM
31	Is it just my family that has a middle schooler with much more work than my high schooler? A little I'd put to kid style differences. But Oak Allied Arts vs SHS electives have my middle schooler working much longer than my high schooler. 2 different approaches to hands on classes in remote learning + New AA vs 4th qtr of an elective = huge disparity in required work.	5/1/2020 8:05 AM
32	Can you please make live meetings optional?	5/1/2020 7:19 AM
33	One more thing: both of my kids were profoundly disappointed when they heard that school would not reopen this year. I wonder if there's a way to give them one last day with their team, maybe in August? I realize it's maybe a stretch to do something like that. It's such an unsettling thing to not have a sense of closure on the year.	5/1/2020 7:13 AM
34	There will be grades at the end of the year, yes? It was unclear whether teachers were issuing grades at the end of T3. Since none of the communications said there would NOT be grades, we assumed there would be. But this could have been clearer.	4/30/2020 10:46 PM

42	Mobile devices and the iPad at times were not in correlation with regards to due dates and times, this led to a lot of stress and tension due to notification from the teacher that work was not being completed on time. I think it's important to make sure all versions are up to date.	4/30/2020 2:24 PM
43	Why are teachers on the same team having zoom meetings at the same time? this is extremely difficult to figure out which zoom we are supposed to be on. It doesn't help that my son has no interest in remote learning so it is a struggle and I wish they had more face time with teachers.	4/30/2020 12:30 PM

48	While elementary schools are not all iPad, they are doing a great job with their plans. Really organized, plans sent out on a Friday so working parents can plan. Also, can the district PLEASE figure out a way to get all gaming and YOUTUBE off of the iPad. Block them. We can't be over our children's shoulder watching how they are using the technology when we have to work. They absolutely need to learn to be accountable, but they are teens. I am able to control all technology and block sites on home technology but can't do this for school technology.	4/30/2020 10:56 AM

Oak Middle School Remote Learning Survey – April 2020

116	Is there a cohesive plan for the Fall for online learning if we don't go back, or just part time?	4/29/2020 5:15 PM
117	T3 should be pass/fail only!	4/29/2020 5:13 PM
118	Maybe make video required for zoom	4/29/2020 5:09 PM
119	none	4/29/2020 5:08 PM
120	I know that this is difficult for teachers, especially those with their own kids at home and I understand why the live learning is minimal but I feel that now that we are out for the rest of the year there should be a push in the upper grades (middle/high) to have more live learning. I know Westborough and other surrounding towns are doing more (ie: 9-12 daily of live learning) and I worry that we are not providing enough for our upper grades-especially 8th graders headed off to the high school	4/29/2020 5:06 PM
121	None	4/29/2020 5:05 PM
122	No questions.	4/29/2020 5:02 PM
123	It's hard, be kind to yourselves. Maybe be more focused on going deeper on subjects instead of trying to squeeze it all in.	4/29/2020 5:01 PM
124	Some assignments are due only at the end of the week and the students will need to work on it daily. Can there be mini submissions requested everyday to keep the students on track?	4/29/2020 5:00 PM
125	None	4/29/2020 4:59 PM

#	RESPONSES	DATE
1	Please continue to challenge the kids, at new concepts, not just reviewing concepts.	5/3/2020 6:57 PM
2	I like having the teachers submit all assignments on Monday. It makes it so much easier to plan ahead and help with homework when necessary.	5/3/2020 4:49 PM
3	I think that my child is experiencing the right amount of difficulty	5/2/2020 10:08 PM
4	There should be a gap in between classes in case teachers extend so kids don't miss out on the next class. Ex team meeting, foreign language, allied arts	5/1/2020 5:41 PM
5	Nothing really.	4/30/2020 12:13 PM
6	Overall, remote learning is going well. The only challenge is when the Zoom meeting links do not work.	4/30/2020 11:54 AM
7	7 green teachers have been awesome with clear expectations and are always available for questions and support.	4/30/2020 9:49 AM
8	I wish there was more zoom learning/teaching time. The teachers have been very supportive and available.	4/30/2020 9:01 AM
9	Very impressive work by the teachers.	4/29/2020 8:05 PM
10	I understand some of the zoom meetings are quite large and I hear that there is not a lot of learning happening just feels like more homework.	4/29/2020 7:33 PM
11	It's intimidating for my kid to ask questions while zoom. The overall environment is not comfortable for my kid, feels weird to them.	4/29/2020 6:38 PM
12	A weekly schedule/calendar posted on Monday on what is due for the week would be helpful. Teachers are posting their assignments independently and at times it is confusing to read in schoology. Thank you.	4/29/2020 6:12 PM
13	I am very disappointed in 7 Whites use of "live" time and lack of interacting with students. I also do not find Khan Academy a way to teach students. I can be doing that myself at home w my daughter.	4/29/2020 5:59 PM
