#	RESPONSES	DATE
1	Trying out best	5/4/2020 9:44 AM
2	My child needs modification to his remote learning	5/3/2020 11:46 PM
3	She likes the activities. For her, they could be more challenging, so we do some extra work on the side.	5/3/2020 11:00 PM
4	I think my sons teacher is doing a great job offering different ideas for continuing his education while at home. The weekly plans give us some structure during the week.	5/3/2020 2:40 PM
5	Teachers do a great job of engaging the children and keeping a routine from school at home, especially through the videos they share of themselves doing things they would normally do in class.	5/3/2020 4:40 AM
6	Very confused by the resources and links - there is no single comprehensive resource informing us of the assigned tasks. We have emails from multiple sources with links embedded in them that often are confusing, several seesaw accounts, an email password reset, multiple instructions for zoom. We have been very frustrated by this and I am worried are missing out on content for our child I cannot tell what should be submitted for review The "office hours" are appreciated by unfortunately take place when I am at work and we cannot participate	5/2/2020 6:25 PM
7	My child has enjoyed receiving videos from his teacher. It is nice he can see his teacher, sing along, be reminded of some classroom routines and it helps remind him he still has to do schoolwork!	5/2/2020 6:58 AM
8	Great videos for the young children.	5/1/2020 6:54 PM
9	I think the plans are easy to follow. My student loves hearing and seeing her teacher read books and give mini lessons remotely.	5/1/2020 6:40 PM
10	Child has some trouble with too much screen time.	5/1/2020 11:11 AM
11	There are so many things to do that there is not enough time to spend on her work. To many emails from school team it is hard to keep track	5/1/2020 10:27 AM
12	We think the scheduled activities are a great way to provide a little structure to our day, and our son loves the project based nature of a lot of the assignments. Seesaw has made keeping things organized easier for us too.	5/1/2020 9:26 AM
13	enough content to guide us and keep them occupied.	5/1/2020 8:07 AM
14	It helps in keeping my daughter geared up to see her friends in zoom or see teachers videos everyday. She feels better in those hours of remote learning. This is a great initiative to keep the kids still connected to the school	4/30/2020 8:22 PM
15	Love the maim meeting with teachers and easy to follow google doc every week.	4/30/2020 8:08 PM
16	I like the seesaw videos posted by my child's teacher and the seesaw activities because they are more interactive. I am surprised that there is work listed for everyday when many preschool students do not attend school everyday. There was even work listed during the vacation days of April vacation. I was also expecting more number and letter id/sounds work.	4/30/2020 7:06 PM
17	I believe it is work well and everyone is still learning how to deal with it.	4/30/2020 5:01 PM
18	It gives us a morning routine. The lessons are fun and easy to facilitate.	4/30/2020 4:55 PM
19	New materials helps parents to plan for different activities and Aryan is excited to see his friends and class teachers.	4/30/2020 2:37 PM
20	It's very hard to get Owen to watch the videos presented. We're also having issues at home with meltdowns that last more than a half hour. We're getting him to do the Zoom meetings, but the assignments are torture. I'm not forcing him to do it either. He's still learning in other ways at home. Also, I didn't send him to preschool concerned about academics and there's no real way to simulate the social emotional learning that takes place in class.	4/30/2020 1:57 PM
21	My son enjoys the interactive Zoom lessons, but the live SeeSaw session he's not interested in.	4/30/2020 12:06 PM
22	I think teachers are doing a great job.	4/30/2020 11:30 AM

Parker Road Preschool Remote Learning Survey – April 2020

23	I think its very challenging to keep a 3 year old engaged in online/remote learning. I have an older kid in elementary school and it seems to work better as they know what is expected of them and are pretty independent once you set them up. But preschoolers will need parents time and are unable to relate	4/30/2020 10:42 AM
24	My child is not interested in online learning which makes it difficult to get him to focus	4/30/2020 8:47 AM
25	He doesn't have much interest in learning from home	4/30/2020 8:37 AM
26	I love her details the plans are. We can follow everything and I believe my son is learning really well. This is nothing to do with the remote learning but I believe he misses the interactions with his teachers and friends.	4/30/2020 8:24 AM
27	This is a preschooler. I'm not sure remote learning is necessary but I do appreciate the efforts made by the school.	4/30/2020 8:11 AM
28	See saw ha been good. Zoom has been ok	4/30/2020 5:14 AM
29	As both parents work full time and have other siblings to attend to, it's difficult to find the time to assist my preschooler with the assignments every day. We do the best we can but don't find ourselves completing every single assignment	4/30/2020 2:54 AM
30	8	4/30/2020 12:27 AM
31	My son is 3Y and half, he cannot talk and sometimes it isn't easy to make him sit and work, though I like the teachers and their working with kiddos	4/29/2020 11:57 PM
32	My pre schooler is really struggling without the structure of being at school. I have tried to give him structure, he's just bucking the system. Hard. And he has two older siblings doing school work too, and I include his little sister so that no one has "free play" while I'm trying to do the fun preschool activities.	4/29/2020 11:23 PM
33	The lessons and activities are super! It can occasionally be tricky to get my son to complete most/all activities and hold his interest. Not because of the activities but because of the home setting and having his siblings and other toys in a nearby room. I usually work his activities in between helping my other children's work. It's overall going well though!	4/29/2020 11:18 PM
34	Now for this moment will be working	4/29/2020 11:09 PM
35	Not enough engagement of kids. More interactive sessions would be good to help them learn better.	4/29/2020 11:06 PM
36	The teachers are doing a fantastic job, but it is definitely hard teaching the children the expecting of doing work at home. Its confusing for them.	4/29/2020 11:04 PM
37	Sometimes it's difficult to make the kid concentrate throughout the session	4/29/2020 10:20 PM
38	I love how Mrs Cushman made daily assignments easy to follow and how our teacher is daily communicating to the class adding valuable information to the activity of the day and also providing needed connection for the little ones.	4/29/2020 9:54 PM
39	I really appreciate that the work is sent Friday for the following week and is spread out by subject so I know what they are to be working on. My 4.5 year old is doing a great job with one subject, play or Sesame Street break and then next class. It has created structure for him and confidence for me as his new "teacher" Thank you!	4/29/2020 9:41 PM
40	Some days Its hard to get my preschooler to do any work	4/29/2020 9:34 PM
41	I find the (short) social Zoom call or arts and crafts is when my child is most engaged with school learning. I have tried to reinforce the concepts (letter recognition and sound and counting) throughout the week. We do not always get to the specific SEL activity, but we hit at least 2. At this age "live chat" is hard because I have to play translator. There is nothing for her to focus on.	4/29/2020 9:24 PM
42	Its challenging but I appreciate the effort of school staff and acknowledge it. Online interaction is working fine most of the times.	4/29/2020 9:08 PM
43	Thankful to all the teachers for sending out regular communication and arranging different interactive sessions every week	4/29/2020 8:57 PM
44	He doesn't want to do it most of the time.	4/29/2020 8:53 PM

Parker Road Preschool Remote Learning Survey – April 2020

45	The teachers are doing a phenomenal job, but my student is not receptive to remote learning. Routine is crucial as is the correct learning environment and that is something we cannot replicate at home unfortunately.	4/29/2020 8:50 PM
46	It's very good.	4/29/2020 8:47 PM
47	Lessons seem longer this week and it has been challenging to keep my child focused.	4/29/2020 8:22 PM
48	My daughter doesn't like the idea of the video calls. She's fine once she gets on it but has a meltdown for an hour prior. The lessons plans are a lot to go through and we struggle to balance with work schedules	4/29/2020 8:21 PM
49	For me is working good.	4/29/2020 8:01 PM
50	For us it is working okay but since it's a very short session, children hardly get to do things with their teachers engaged and most of the time parents have to get involved with them to keep them engaged through the day	4/29/2020 7:50 PM
51	We feel our child benefits more from live interactions and in the school setting.	4/29/2020 7:48 PM
52	Zoom calls are working better. But doing the assignments are the real challenge. It's hard to make our 4year old do those tasks.	4/29/2020 7:39 PM
53	Too much emphasis on videos, not enough actual activities to teach with	4/29/2020 7:33 PM
54	It has been the very first experience and still trying to adjust with the new delivery methodology.	4/29/2020 7:19 PM
55	8	4/29/2020 7:17 PM
56	It's been crazy! Having 4 kids home and 4 on zoom and a infant is hard. And there a lot of distraction learning from a computet	4/29/2020 7:07 PM
57	A lot of busy work a LOT of video watching	4/29/2020 6:48 PM
58	Lots of resources available	4/29/2020 6:47 PM
59	Working very well.	4/29/2020 6:44 PM
60	Not enough daily content in the daily assignment plan. Review the whole weeks handout materials in one sitting with daughter. Do like the daily videos from the teacher as that helps get her involved. And she looks forward to the weekly zoom meeting.	4/29/2020 6:43 PM
61	Good experience so far. His teacher is amazing and very accessible.	4/29/2020 6:32 PM
62	I don't really know how to use the learning materials very well. Where my child is only three, I feel like she gets more out of the interactions at preschool than the words were practice. I _know_ she is still learning, but its hard to see.	4/29/2020 6:29 PM
63	Having difficulty keeping my preschooler focus and motivated to do the learning	4/29/2020 6:17 PM
64	The criteria is great. Trying to get my daughter motivated to do the work it challenging	4/29/2020 6:16 PM
65	10/10	4/29/2020 6:06 PM
66	this week we were unable to connect remotely to the Seesaw Zoom meeting	4/29/2020 6:06 PM
67	9	4/29/2020 6:03 PM
68	The assignments and activities are all great activities. The problem with the remote learning is that I can't always get My child to focus, or get the response that is needed. I try my very best to keep him engaged and try to use the best language to convey what needs to be conveyed but it feels like a struggle.	4/29/2020 6:02 PM
69	I think it's very useful and a great variety of learning. My daughter stays interested and likes doing the little projects. I think sometimes and can be a little confusing And stressful for the parents esp us still working with all these school accounts and passwords and links to the zoom and schoology etc. Otherwise I think it's great	4/29/2020 5:40 PM
70	Generally, my preschooler is disinterested in remote learning. It is difficult to get her to engage during zoom calls, but she does enjoy the recorded segments on Seesaw posted by the teacher. She has one more year of preschool before kindergarten, so we are not overly concerned as parents. She has been working on preschool workbooks at home doing age	4/29/2020 5:38 PM

appropriate projects. We have two older students (grades 5 and 2) that are requiring more of our attention and guidance, taking away from the ability to focus on the preschooler's learning.

71	We signed up our 3 year old for social interaction skills. We can't get that through an online learning. While the teachers do a great job. It's mostly the parents sitting there trying their best to get the kids to sit still.	4/29/2020 5:37 PM
72	Manageable and meaningful	4/29/2020 5:30 PM
73	They are small kids they won't take serious. They won't listen that much trough remotely	4/29/2020 5:16 PM
74	For our family, it is very challenging due to the combination of two parents with demanding full-time jobs and the difficulty in getting our son who is on an IEP interested and engaged in activities.	4/29/2020 5:14 PM
75	So thankful for the hard work from teachers and specialists. Shelia, Jen, and Maria have been extraordinary.	4/29/2020 5:13 PM
76	the daily videos are a hit/miss for my son. he is either paying attention or sobbing hysterically. the additional assignments he glazes over, refuses to participate with any of the video ones. he gets super anxious before the weekly zoom, but after is happiest that he got to participate with his class.	4/29/2020 5:09 PM
77	Struggle to keep his attention to get through each subject in time suggested for preschooler to be working on remote learning.	4/29/2020 5:08 PM
78	My son loves the daily posts on see saw. We do some of the activities on the weekly email.	4/29/2020 5:07 PM
79	2 start	4/29/2020 5:07 PM
80	its working well	4/29/2020 5:00 PM
81	It is not interactive enough.	4/29/2020 5:00 PM
82	Not much direction for the kids. Less interaction with the teachers.	4/29/2020 4:58 PM
83	Most days child is engaged and asks to do his school	4/29/2020 4:56 PM
84	My daughter (5) is reluctant to do anything that feels too much like "edu-speak". It makes her sad that she is not in school	4/29/2020 4:53 PM

#	RESPONSES	DATE
1	The platform that we use is Seesaw. We can pause and replay when necessary. Zoom is overwhelming and loud for my child. It's not appropriate for preschool children.	5/3/2020 11:46 PM
2	She really enjoys the live interactions.	5/3/2020 11:00 PM
3	My son loves watching videos of his teacher that she posts on seesaw. He has been able to do a couple of zoom meetings with her and his classmates but his attention span doesn't quite seem to be ready for that.	5/3/2020 2:40 PM
4	My daughter looks forward to seeing the daily videos from her teacher.	5/3/2020 4:40 AM
5	Appreciate time spent by teacher w zoom	5/2/2020 6:25 PM
6	The children are so young so having sessions much longer could prove to be somewhat difficult. My child has enjoyed seeing his classmate's faces on Zoom.	5/2/2020 6:58 AM
7	Difficult for this age to understand what live teacher interaction is all about. Also, to hear other students in the classroom.	5/1/2020 6:54 PM
8	My student loves it!	5/1/2020 6:40 PM
9	Seems good.	5/1/2020 11:11 AM
10	15minutes once a week is not enough. We should have more time slots so we can get to attend if we miss one	5/1/2020 10:27 AM
11	He'd love to have another zoom during the week, but we know how busy organizing everything is!	5/1/2020 9:26 AM
12	Though there is not enough amount of time as in person spent. This definitely helps more to keep the kids stay connected with updates	4/30/2020 8:22 PM
13	I think it would hard to engage if the live meetings were longer	4/30/2020 8:08 PM
14	On think the "virtual live" meeting on SeeSaw, where the teacher is monitoring feedback from students at a certain time should be replaced with a live Zoom web session. I think my child understands a live zoom call and also videos, but not the idea of virtual text chat.	4/30/2020 5:01 PM
15	it's an appropriate amount of time for my child's attention. They do fun, engaging activities	4/30/2020 4:55 PM
16	This week with 2 Zoom meetings was much better, but the live Seesaw is not really effective.	4/30/2020 1:57 PM
17	My son really enjoys the live Zoom meetings, would love the opportunity to schedule more of those interactions	4/30/2020 12:06 PM
18	2 zoom meetings a week are sufficient	4/30/2020 8:47 AM
19	More live interactions would be great	4/30/2020 8:37 AM
20	i am neutral. He liked to participate but kept asking when he can go to school	4/30/2020 8:24 AM
21	Again, preschoolers can only be expected to pay attention for so long so the short zoom meetings twice per week are fine.	4/30/2020 8:11 AM
22	3 days a weeks would be nice.	4/30/2020 5:14 AM
23	my child really enjoys the zoom meetings and being able to interact with his teacher and classmates 1-2 times per week	4/30/2020 2:54 AM
24	9	4/30/2020 12:27 AM
25	NA	4/29/2020 11:57 PM
26	I wish we had more live teacher interaction. He loves and misses his teacher, but when we have recorded videos he's sometimes engaged and sometimes I struggle to keep him engaged with the lesson.	4/29/2020 11:23 PM
27	The amount of live learning time is just right to hold his attention and to go thru the necessary learning goals for the week.	4/29/2020 11:18 PM
28	Kids, this age doesn't like interactive screen but for this moment works	4/29/2020 11:09 PM

Parker Road Preschool Remote Learning Survey – April 2020

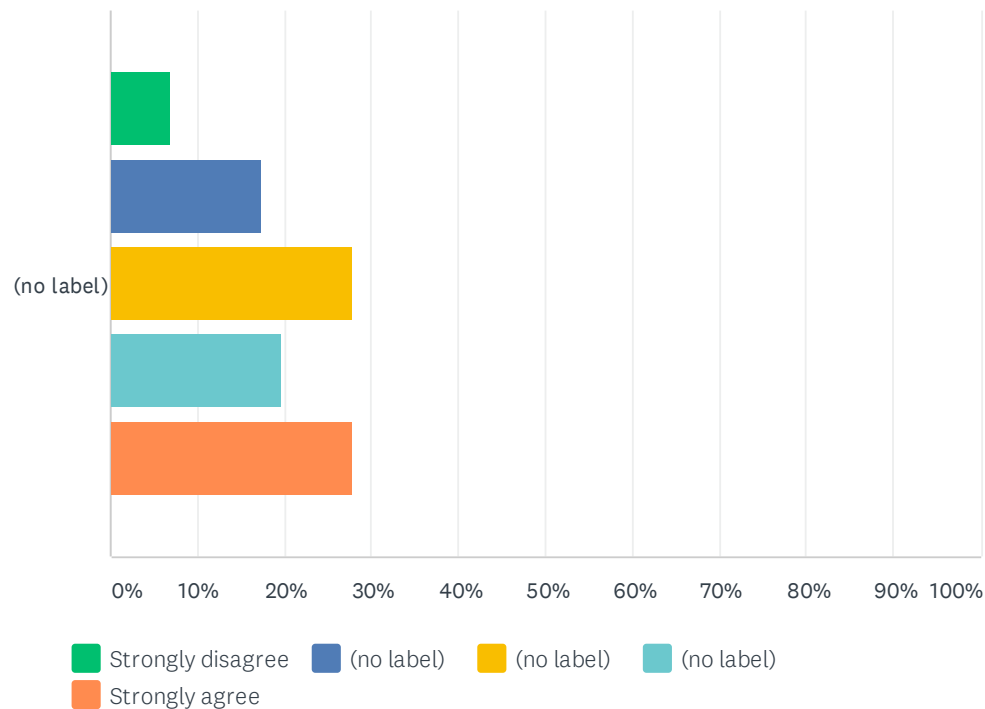

29	I believe two sessions of 15 minutes is not enough.	4/29/2020 11:06 PM
30	There could be some more live sessions	4/29/2020 10:20 PM
31	My child likes Zoom meeting over Seesaw live interaction. At the end of a seesaw video, if the teacher leaves a question my child is always very interested in participating but my child prefers talking to the teacher and having the teacher talking back.	4/29/2020 9:54 PM
32	I know it is not possible/is unrealistic but my wish is to see Mrs Heinen as well Ms. Monopoli and Mrs Thompson do a 1:1/team 1:1 with my child before the end of the year.	4/29/2020 9:41 PM
33	I don't have an opinion on this, they are very young so not sure how much should or shouldn't be	4/29/2020 9:34 PM
34	Preschoolers are too young for anything more than once a week, and parents have to sit with them to monitor.	4/29/2020 9:24 PM
35	Not sure	4/29/2020 9:08 PM
36	Teachers send out zoom invite. There are interactive videos and stories shared on different platforms	4/29/2020 8:57 PM
37	Once twice a week is good for Mateo	4/29/2020 8:53 PM
38	Nothing can replace the time spent interacting with their teacher when school was in session so there is definitely a disconnect with the frequency now.	4/29/2020 8:50 PM
39	Great	4/29/2020 8:47 PM
40	I think my child would benefit from more live interaction time via zoom with our teacher.	4/29/2020 8:22 PM
41	The teacher is providing recorded messages, reading stories and live classroom time. She's great	4/29/2020 8:21 PM
42	For me it feels perfect amount of time.	4/29/2020 8:01 PM
43	Children should have more informative live sessions covering little bit of numbers and letters also	4/29/2020 7:50 PM
44	Our child LOVES the live interactions and zoom meetings; always asking when the next meeting is scheduled	4/29/2020 7:48 PM
45	It's about 15 mins of zoom meeting and I can't say that's sufficient. And at the same time, it's hard for children to sit and concentrate more than that time too.	4/29/2020 7:39 PM
46	The amount is fine	4/29/2020 7:33 PM
47	15 min session once a week doesn't seem to be sufficient. Kids are missing the learning at this age when they meet and interact with each other.	4/29/2020 7:19 PM
48	10	4/29/2020 7:17 PM
49	Hard	4/29/2020 7:07 PM
50	Definitely need more live teacher interaction. Not just videos but engaging the students live. Only zoom two times a week.	4/29/2020 6:48 PM
51	15 minute meetings seem too short. Half the time is eaten up by saying hello and getting settled	4/29/2020 6:47 PM
52	Very well	4/29/2020 6:44 PM
53	once a week is better than nothing. but it would be overwhelming if every day.	4/29/2020 6:43 PM
54	Would prefer more teacher interaction such as daily or every other day zoom meeting with teacher and classmates.	4/29/2020 6:32 PM
55	15 minutes 1 time a week seems so short. I don't know what else we would fill the time with. I just know my daughter looks forward to this time so so so so much, more than anything else, just to see and hear her teacher.	4/29/2020 6:29 PM
56	Only have 30 minute face to face and then a "live chat" which is not working	4/29/2020 6:17 PM
57	Wish it was more	4/29/2020 6:16 PM

59	this week we were unable to connect via Seesaw/Zoom to remote learning meeting	4/29/2020 6:06 PM
60	8	4/29/2020 6:03 PM
61	For preschoolers it is hard to keep attention spans on a live platform, the recorded videos seem to be better because we can go back to it or watch multiple times	4/29/2020 6:02 PM
62	It covers a great range of material	4/29/2020 5:40 PM
63	We have one zoom call her week but daily video posts by the teacher that are short enough to keep our preschooler's attention.	4/29/2020 5:38 PM
64	3 year olds aren't meant to sit in front of a screen for learning. In person experience is what makes the difference.	4/29/2020 5:37 PM
65	Neutral- as nothing can replace my child seeing his teacher 4 days per week	4/29/2020 5:30 PM
66	A daily short live interaction would create a routine which I believe would help my son be more willing to participate	4/29/2020 5:14 PM
67	N/a	4/29/2020 5:13 PM
68	while the daily videos are helpful, i feel like the only lesson my son is actually engaged in is the weekly zoom, where he is forced to come out of his shell and interact.	4/29/2020 5:09 PM
69	Teacher videos have been great!! And only time i can get my child to fully participate and pay attention.	4/29/2020 5:08 PM
70	My son loves the see saw daily videos of his teacher. He doesn't enjoy the zoom calls as much.	4/29/2020 5:07 PM
71	The live interaction time can be extended	4/29/2020 5:07 PM
72	its very helpful so we can communicate with the teachers	4/29/2020 5:00 PM
73	The live interactions are good but not focused enough.	4/29/2020 5:00 PM
74	Discussion boards are hard in preschool while we have 2 full-time working parents	4/29/2020 4:56 PM
75	she would love to see/ interact in real time with her classmates and teachers more than 1 15 min session. I also think that she would benefit greatly from one on one or small group zooms for her speech language iep	4/29/2020 4:53 PM

1	Communication has been thorough and just enough	5/3/2020 11:46 PM
2	I appreciate all the effort by the staff of Parker Road. It's a lot to get through (as I also have kids in elementary and middle schools), but I know every communication is well thought out and relevant.	5/3/2020 11:00 PM
3	You guys have been great about keeping us up to date through email.	5/3/2020 2:40 PM
4	Parker road preschool has done a great job of putting most or all information I to one email so that we are not receiving so many different ones	5/3/2020 4:40 AM
5	It is not necessarily too much, it is just entirely too confusing- multiple emails from many people all with instructions- not streamlined	5/2/2020 6:25 PM
6	It has been nice to get the consolidated emails from Lisa on Friday afternoon so I can prep for the upcoming week. Daily emails reminding us there is a video from his teacher is helpful.	5/2/2020 6:58 AM

16	I feel that communication is adequate; however, almost all of the communications are copied and pasted from the Floral communications. They even include the elementary school assignments which is a bit odd to me given there are no elementary classes at Parker Rd.	4/30/2020 1:57 PM
17	I appreciate that information is presented in one concise email per week.	4/30/2020 12:06 PM

31	I just miss having Mrs Robinson email right in my mailbox, rather than having to click a link to read her communication. I haven't read her Parker road press for a couple weeks. If possible I wish she could go back to send her message in a way that we don't have to click anything to read. Also, another idea would be to pick a day in the week to send an email, like Wednesday or Thursday...	4/29/2020 9:54 PM

52	Good	4/29/2020 6:32 PM
53	Overall, the right amount. Ms Heinen's daily videos are looked forward to and enjoyed, we love them. Emails from Mrs Robinson are good. I know there have been extra sessions for parents, primarily announced through seesaw, and there's just so much going on there for all my kids, announcing things like this through seesaw doesn't work for us, we've missed those announcements. I'd love to attend those sessions & have missed them.	4/29/2020 6:29 PM

1	I'd like to thank the entire staff of Parker Road for all of their efforts. They are very much appreciated.	5/3/2020 11:00 PM
2	You guys have done a great job with this transition. I can't imagine how difficult it would be to transition a preschool curriculum to remote learning. We're very happy with how everything has gone and feel very lucky to be part of Parker Road. Thank you for all that you do.	5/3/2020 2:40 PM
3	While printing out all of the material from Lisa's email last week I found myself having to click on numerous links within the document which was time consuming. I'd love to receive a single PDF deck of every single page/activity/topic. It would be nice to also have it in order of the week's schedule. i.e. Monday's schedule would be followed with the associated pages and then continue on with Tuesday, etc. It would be a great way for us to have a single document to print and have everything handy for the week. I has been helpful to have all pages printed so I can go through it with my child and check off when we complete something. We're putting it in a binder and adding weeks as we go. (I would even be able to help with the PDF if you needed it!)	5/2/2020 6:58 AM
4	Difficult age for remote learning. Child responds well to interactive learning tools. Also loves the force and motion video.	5/1/2020 11:11 AM
5	We need possibility to do virtual speech, physical therapy and other services	5/1/2020 10:27 AM
6	Thanks for all your hard work! You are all FANTASTIC!	5/1/2020 9:26 AM
7	This remote learning program is a great initiative especially for preschoolers who get easily bored with quarantine	4/30/2020 8:22 PM

10	My kid also has speech related activities (IEP) in addition to daily class activities. I see my child engage better to online activities from Mrs.Boyle's class rather than the story reading or zoom session with his class teacher. This may be related to his personality but I think this may be an option to explore for daily class activities - some kids may benefit from activities like writing /drawing alphabets/numbers/matching in seesaw class.	4/30/2020 10:42 AM

15	While live learning is great more see-saw content would be better especially at this age. For some of us who are still working normal hours (or going in to work) it is difficult to do this in the mornings.	4/30/2020 5:14 AM
16	We would appreciate teachers understanding and being flexible during this time. Our children cannot do remote learning independently so it requires a lot of help from parents who may be struggling to find time to complete everything during this time.	4/30/2020 2:54 AM

23	This age may be the hardest to teach remotely because they are just developing skills that	4/29/2020 9:24 PM

other grades (and adults) take for granted. This is such a crucial time and I feel like PR has tried very hard to keep mental happiness in the forefront and figuring out ways to help parents make play both fun and educational.

24	Feels so lucky to be part of this community. Thanks to all the teachers for putting extra effort.	4/29/2020 8:57 PM
25	Everyone is trying their best- teachers, parents, students but it's very hard with our student to follow the lessons and stay engaged. It's really saddening to see some regression, but we do all that we can at home to teach valuable skills and life lessons and spend as much time outside, at the very least.	4/29/2020 8:50 PM
26	It's been a easy way to have my child learning due to the crisis we are currently living.	4/29/2020 8:01 PM

36	Printing out homework assignments. I try to conserve paper by printing on both sides of the paper. However when both landscape and portrait orientations of the pages are mixed, I can not just print out odd then even pages. I have to manually select what is printed and the orientation. It would be nice if just one orientation was chosen for the homework pages. I.e. any landscape orientations rotated to portrait orientation. Also when there are cutout pages, it would be helpful to know which ones so that I don't print on both sides of them.	4/29/2020 6:43 PM
37	Great job so far	4/29/2020 6:32 PM
38	Thank you for everything you're doing. We miss school so much, it's a very frustrating time.	4/29/2020 6:29 PM

41	I feel that I could never offer my child a complete education or give him the tools that he needs to be successful right now. I try very hard to work with him as best I can but he needs services that I can not offer him. It is hard to describe, but because he has never participated in a classroom it is difficult for me to know if what I am teaching is working or is correct. I just hope that what I am doing is enough to help him learn to some degree.	4/29/2020 6:02 PM

43	Overall, we are impressed by the content provided for preschool. If my child were moving up to kindergarten next year, we'd likely be following more of the content from home than we currently are. For a first year preschooler, it is more than we are willing and able (b/c of older children) to support from home.	4/29/2020 5:38 PM
