About the TV Studio

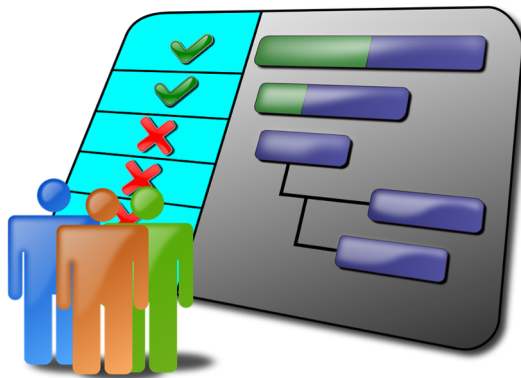

Brainstorming and the Initial Thought Process

- Understanding expectations.
- List off all academic activities, clubs, and posts that are to be included.
- What type of video?
- What type of format?

Scheduling and Travel

- Had to coordinate all of our class schedules to figure out which day would work best to gather footage.
- Needed someone to drive us (Drew).
- Visited all Shrewsbury public schools and had to contact all the principals.
- Limited time at each school, had to plan wisely.

Editing and Music

- Music was originally a 10 minute piece, had to be cut down and spliced together until it was one minute.
- Sorting through the clips and figuring out what to use was the most rigorous process.

In Conclusion
