Space and Resources to Support Effective Learning

Participate in building a FY20 budget plan that meets the resource needs of the middle level in order to support each school's improvement plan goals.

Learning Environments Where Everyone's Success Matters

Goal 1

- Create an inventory of inclusive practices.
- Create specific targets for implementation.
- Communicate progress and report findings regarding levels of participation.

Goal 2

- Identify gaps and monitor progress of “high needs” students.
- Report on findings regarding “high needs” students and determine action steps for improvement.

Enhanced Well-Being of All

- Participate in district and school-based steering committees focused on social emotional learning.
- Complete assessment of school-based practices.
- Create a school-based implementation plan.

Connected Learning for a Complex World

Goal 1

- Create an inventory of current project-based learning (PBL) practices.
- Develop PBL opportunities that incorporate authentic audiences and exhibitions of learning consistent across grades/content areas

Goal 2

- Assess current practices and continue to provide ways to expose students to a variety of career opportunities.
- All grade 8 students will complete online career exploration course.

Goal 3

- Create one building-based community partnership at each middle school.

School Specific Goal: Sherwood Middle School

Cross curricular teams will develop best practices in school-wide learning expectations to ensure greater consistency across all content areas.

All students will engage in student exhibitions of learning that showcase the authenticity of learning.

School Specific Goal: Oak Middle School

- Complete a school self assessment based on the middle school model outlined in *This We Believe*.
- Develop a set of recommendations along with an action plan for school improvement.
