## Shrewsbury High School Class Size Report - October 2018

This report is based on data from the week of October 1, 2018. It contains information on class size and student enrollment for the first and second semesters of the 2018-2019 school year.

### Overall Enrollment

With an increase of 6 students from last year, high school enrollment has again reached its highest level with 1,838 students in grades 9-12. Since the 2009-2010 school year, overall enrollment has increased by 214 students. The charts below show the ten-year enrollment trend for the high school both in the aggregate and by grade.

### **Diversifying Student Population**

From July 1<sup>st</sup> through October 1<sup>st</sup>, 2018, sixty-four (64) students have enrolled at Shrewsbury High School. This population continues to influence the demand for certain courses resulting in a relatively significant impact on FTEs for certain departments. These sixty-four students came to Shrewsbury from the following locations:

- 47 from within Massachusetts
- 5 from states other than Massachusetts including:
  - Arkansas
  - Kentucky
  - New Jersey
  - Vermont
- 12 from countries other than the United States including:
  - Brazil
  - Ghana
  - India
  - Pakistan
  - Singapore
  - United Arab Emirates

### **Building/Facility Capacity**

Increased enrollment impacts the master schedule, the availability of courses, class size, and building capacity. With its highest enrollment on record and an additional 2.2 teaching FTEs from last year to this year, Shrewsbury High School operates at a building capacity of 98% (compared to 76% just three years ago). That is, on average, 98% of classrooms are in use during the school day (periods 1 – 7). Furthermore, there is not one academic classroom available during periods 1 or 7.

As a result of the limited classrooms, 66% of teachers now teach in two or more classrooms and 19% of teachers now teach in three different classrooms throughout the day.

### Teaching and Full-Time Equivalency (FTEs)

In order to address the overall increased enrollment and demand for courses, the following departments increased FTEs in teaching staff from last year to this year:

- Science: internal shift of 0.4 FTE from Engineering to Science
- Foreign Language: additional 0.2 FTE in Latin
- Math: additional 1.0 FTE
- Special Education: additional 1.0 FTE

### Class Enrollment

As a result of the additional FTEs indicated previously, the significant progress made in reducing the number of over-enrolled (27 or more students) sections was maintained in the English, Foreign Language, Science & Engineering, and Social Science departments. The addition of 1.0 FTE in math reduced the number of over-enrolled sections from 20% last year to 10% this year.

\*As a result of National Lab Standards, science courses are considered over-enrolled with more than 24 students in the class.

### Teacher Caseloads

The vast majority of SHS teachers are responsible for a caseload of between 100 and 120 students (class size average is 20 - 24 students per section). Although the over-ride in June 2014 significantly reduced teachers' total caseload of students and their corresponding average class size, 65% of teachers have an average caseload higher than School Committee guidelines of 18-20 students. Moreover, 37% of teachers this year have an average class size over 22 students compared to just 15% three years ago.

### School Counseling

One of the departments most affected by an increase in enrollment is the School Counseling Department. With the addition of 170 students in the past three years, the average student-to-counselor ratio has increased from 225:1 just three years ago to 252:1 this year.

### Special Education Additional FTE and Co-Taught Courses

The addition of a 1.0 FTE in Special Education allowed additional opportunities, access, and equity to our students under Special Education. The additional 1.0 FTE was allocated as follows:

- Additional section of Essential English offered.
- Additional co-taught science course offered.
- Additional section of Learning Skills offered.
- Additional section of Social Skills offered.
- Additional allocation dedicated to neuropsychological testing.

A total of seven Special Education and ELL co-taught sections in Mathematics, Science, and English exist for the 2018-2019 school year: Lab Chemistry, Lab Biology, Lab Physics, Algebra and Geometry I, Algebra and Geometry II, Advanced Math I, and English 9. Students enrolled in these specialized support courses continue to perform well on MCAS, and they continue to make progress towards their overall graduation requirements.

### Student Internships

Although the number of students enrolled in school-based internships has significantly decreased since last year, the number of students volunteering to tutor in our Peer Tutoring Program has significantly increased. Students in each of our honor societies participate in a minimum number of service hours, and many of these students complete this requirement through the Peer Tutoring Program.

Students enroll in school-based internships for credit during what would otherwise be a study period. School-based internships include office internships, which involve clerical duties (e.g. answering telephones, filing, reception) as well as academic internships where students work as teaching assistants in certain classrooms and provide clerical support to department directors. Enrollments for the past two years are as follows:
