SHREWSBURY PUBLIC SCHOOLS SCHOOL COMMITTEE MEETING

ITEM NO: I Public Participation

MEETING DATE: 3/29/17

SPECIFIC STATEMENT OR QUESTION:

Will the School Committee hear thoughts and ideas from the public regarding the operations and the programs of the school system?

BACKGROUND INFORMATION:

Copies of the policy and procedure for Public Participation are available to the public at each School Committee meeting.

ITEM NO: II. Chairperson's Report/Members' Reports

SPECIFIC STATEMENT OR QUESTION:

Will the School Committee hear a report from the Chairperson of the School Committee and other members of the School Committee who may wish to comment on school affairs?

BACKGROUND INFORMATION:

This agenda item provides an opportunity for the Chairperson and members of the Shrewsbury School Committee to comment on school affairs that are of interest to the community.

STAFF AVAILABLE FOR PRESENTATION:

School Committee Members
Ms. Sandra Fryc, Chairperson
Dr. B. Dale Magee, Vice Chairperson
Mr. Jon Wensky, Secretary
Ms. Erin Canzano, Committee Member
Mr. John Samia, Committee Member

ITEM NO: III. Superintendent's Report

SPECIFIC STATEMENT OR QUESTION:

Will the School Committee hear a report from Dr. Joseph M. Sawyer, Superintendent of Schools?

BACKGROUND INFORMATION:

This agenda item allows the Superintendent of the Shrewsbury Public Schools to comment informally on the programs and activities of the school system.

STAFF AVAILABLE FOR PRESENTATION:

Dr. Joseph M. Sawyer, Superintendent of Schools

ACTION RECOMMENDED FOR ITEMS I, II, & III:

That the School Committee accept the report and take such action as it deems in the best interest of the school system.

ITEM NO: **IV. Time Scheduled Appointments:** MEETING DATE: **3/29/17**
A. Student Recognition: SHS Athletics State Champions

SPECIFIC STATEMENT OR QUESTION:

Will the committee recognize the outstanding achievements of Shrewsbury High School student athlete State Champions?

BACKGROUND INFORMATION:

1. Ms. Julia Schaefer won the MIAA gymnastics state individual all-around title, as well as the state individual event titles in both floor exercise and uneven bars, on February 20, 2017. Ms. Schaefer finished first in the South sectionals on February 25, 2017, to lead the Colonials in her final team meet. Ms. Schaefer was a top-12 finisher in all four events, with an outright win in the bars, and tying for third place in the floor routine to help her to the best all-around score.
2. The SHS Boys Ice Hockey Team finished the 2016-17 season with an undefeated record of 23-0-1, and won their fourth state Division 3 boys' hockey title with a 3-1 triumph over Old Rochester Regional of Mattapoisett on March 19, 2017. Their other championships came in 1999, 2009 and 2014.

ACTION RECOMMENDED:

That the committee recognize the outstanding achievements of Shrewsbury High School student athlete state champions.

A. School Choice for 2017-2018 School Year: Vote

SPECIFIC STATEMENT OR QUESTION:

Will the School Committee vote to open seats for inter-district school choice for the 2017-2018 school year?

BACKGROUND INFORMATION:

1. The Shrewsbury Public Schools has only participated in school choice in the past on a limited basis when the capacity existed to enroll students without requiring additional resources.
2. A public hearing was held on March 15, 2017, to satisfy the requirements of Massachusetts General Law Chapter 76, Section 12B which requires a public hearing prior to a potential School Committee vote to not participate in or to otherwise restrict the provisions of the interdistrict School Choice program.
3. At the public hearing, Dr. Sawyer and Mr. Collins advised that the recommendation for 2017-2018 is to refrain from opening any new seats for School Choice.

ACTION RECOMMENDED:

That the Committee vote to refrain from opening new seats for inter-district school choice for the 2017-2018 school year.

A. Fiscal Year 2016 Per Pupil Expenditures: Report

SPECIFIC STATEMENT OR QUESTION:

Will the Committee hear a report regarding FY 2016 per pupil expenditures?

BACKGROUND INFORMATION:

1. Each year the Department of Elementary & Secondary Education publishes detailed information regarding per pupil expenditures made by each public school district in Massachusetts. Data for Fiscal Year 2016 was recently released.
2. The enclosed report from Mr. Collins provides information regarding Shrewsbury's statistics for Fiscal Year 2016 and comparison data related to per pupil expenditures.

ACTION RECOMMENDED:

That the Committee accept the report and take whatever steps it deems necessary in the interests of the Shrewsbury Public Schools.

Subj: **FY16 AVERAGE PER PUPIL EXPENDITURE REPORT**

As you know, each year the Massachusetts Department of Elementary and Secondary Education [DESE] publishes the average per pupil expenditures for all individual school district and the state as whole. A complete downloadable file is available publicly at

<http://www.doe.mass.edu/finance/statistics/ppx.html>.

Enclosed is a Powerpoint presentation that provides explanatory detail on the production of this data and a variety of comparisons using different criteria. I will present this at your meeting on March 29th.

I have included here a description of how these figures are derived by MA DESE and some changes made for FY16 that lead to an even more granular analysis.

All of this data continues to indicate that Shrewsbury is a cost-efficient district in comparison to peer groups.

School Finance: Statistical Comparisons

FY12-FY16 Per-Pupil Expenditures, All Funds

The per pupil expenditure report has been updated to include **expenditures from fiscal years 2012-2016** . This update continues the effort to present Massachusetts school spending data in a way that is comprehensive, comparable, and transparent to the general public.

These calculations show **all** school operating expenditures including those outside the general fund such as grants, private donations, and revolving accounts. They also include payments for local resident pupils who are being educated in schools outside the district. In addition to showing the overall cost per pupil, they provide detail about how much schools spend in specific functional areas such as administration, teaching, and maintenance.

The file opens to a single, detailed district report by funding source and functional areas. Use the dropdown menus on the detailed report to select a district and fiscal year. By clicking on the tabs at the bottom of the workbook, there are additional reports showing a 3-year trend by major functional areas, and a summary showing per pupil expenditures for all districts. There are also tabs with the complete 5-year dataset, both expenditures and pupils, to support additional analysis.

It is important to note that per pupil expenditures are not calculated for out-of-district expenditures, only total expenditures are shown, see additional explanation below.

Data source and timing

Per pupil expenditures are calculated from information provided on each district's End of Year Financial Report (EOYR). This is a comprehensive report of revenues and expenditures that occurred during each fiscal year.

Districts are required to hire auditing firms to verify the accuracy of the data on the EOYR. In addition, the Massachusetts Department of Elementary and Secondary Education (ESE) conducts a careful review of the data during the months following the report's submission. If any changes are necessary, districts must file amendments.

Spending from all funds

The following funding sources are all included in the functional expenditure per pupil measure:

- school committee appropriations
- municipal appropriations outside the school committee budget that affect schools
- federal grants
- state grants
- circuit breaker funds
- private grants and gifts
- school choice and other tuition revolving funds
- athletic funds
- school lunch funds
- other local receipts such as rentals and insurance receipts

Typically, school committee and municipal school appropriations, approved annually by town meetings and city councils, account for seven out of every eight dollars spent upon education.

Spending categories that are **not** included in the per pupil expenditure calculations are: Community services (6000 series), fixed assets (7000 series), and debt service (8000 series).

In-District and Out-of-District Spending and Pupils

Most school spending goes toward educating local resident pupils in local schools. However, about five percent of the nearly one million public school children in Massachusetts are enrolled in publicly-funded settings outside the district. School districts

pay tuition for pupils at special education schools, charter schools, and other placements. Transportation costs often add to the expense.

The first ten functional categories are for services provided within the school district. In those categories, per pupil calculations are limited to the pupils enrolled at the district. An in-district per pupil expenditure is calculated for these functions and measures what is spent on the pupils enrolled at the district.

The eleventh category includes expenditures made on out-of-district tuitions and transportation. Previous versions of this report included an out-of-district per pupil expenditure. However, this measure was difficult to interpret when comparing districts because it is typically a combination of high-cost special education placements and lower-cost school choice, charter school, and other out-of-district settings. If we were able to assign students to each tuition function to calculate per pupil expenditures at that level, it might be more useful, but that information is not available. Instead, the report only shows total expenditures for each 9000 series function.

The total per pupil expenditure includes all eleven categories of spending, and combines both groups of students, in-district and out-of-district.

Measuring enrollment: the concept of full-time equivalent average membership

The per pupil spending calculations published compare spending, which occurs throughout the school year, to the average number of pupils, which normally fluctuates over the school year. The enrollment statistic used is called full-time equivalent average membership or FTE.

Full-time equivalency refers to the percentage of time that students are enrolled during the school year. A pupil who arrives on November 1 and is still enrolled at the end of the year, for example, would be assigned full-time equivalency of somewhere in the range of eight-tenths.

District spending requirements

The Commonwealth does impose a strictly enforced total spending requirement called net school spending which is an integral component of the Chapter 70 state aid formula. Net school spending includes local appropriations, Chapter 70 aid, and special education circuit breaker monies, but not grants or revolving funds. Because of this, what qualifies as net school spending is slightly lower than a district's total expenditure. Reports showing each district's actual and budgeted net school spending, compared to what is required, are available on the ESE web site, see [detailed compliance reports](#) and the [Chapter 70 district profiles](#).

Otherwise, aside from one maintenance spending provision administered by the Massachusetts School Building Authority, there are no spending requirements for specific functional areas imposed by the Commonwealth.

Charter school per pupil expenditures

Charter schools report their spending in a different format than the districts contained in this report, see [charter school revenue and expenditure data](#).

Per Pupil Expenditure Summary, FY14-FY16

Fiscal year 2016 data last updated March 3, 2017

This report shows per pupil expenditures by major functional categories for the last three years, including total in-district expenditures, and total expenditures for all districts. Total expenditures per pupil average across all expenditures and pupils, both in-district and out-of-district. The out-of-district expenditure functions (9000 series) are not included on this report because we are not able to calculate per pupil expenditures consistently for all of these functional categories. Districts with incomplete fiscal year 2016 data are not displayed.

- Conclusions

How the data is derived

- **Expenditures:** All Massachusetts school districts are required to annually report their revenues and expenditures to the Department of Elementary and Secondary Education using a standard format called the End of Year Report
- **Pupils:** All Massachusetts school districts are required to report their student enrollment data and demographics three times per year via the Student Information Management System

Who publishes the data and when

- **Who:** The average per pupil expenditure data for each school district is calculated and published by the Department of Elementary and Secondary Education and available on their website.
- **When:** Typically the data is published in February or March of each for the preceding fiscal year. FY16 data was published on 3/21/2016.

What goes into the calculation

- **Spending from all funds**
- The following funding sources are all included in the functional expenditure per pupil measure.
 - school committee appropriations
 - municipal appropriations outside the school committee budget that affect schools
 - federal grants
 - state grants
 - circuit breaker funds
 - private grants and gifts
 - school choice and other tuition revolving funds
 - athletic funds

Per Pupil Expenditure Summary, FY14-FY16

Fiscal year 2016 data last updated March 3, 2017

This report shows per pupil expenditures by major functional categories for the last three years, including total in-district expenditures, and total expenditures for all districts. Total expenditures per pupil average across all expenditures and pupils, both in-district and out-of-district. The out-of-district expenditure functions (9000 series) are not included on this report because we are not able to calculate per pupil expenditures consistently for all of these functional categories. Districts with incomplete fiscal year 2016 data are not displayed.

Other Facts

- Shrewsbury ranks #257 of 314 school districts reported thus far. [Data for 15 districts is not yet published.]
 - This is bottom 18th percentile
- *Shrewsbury ranks #72 of 351 Commonwealth communities in income per capita at \$51,488
 - This is the top 21st percentile
- *State average income per capita is \$41,937 and median is \$33,453
 - **Department of Revenue data from 2014-latest available*

Conclusions

- The different data sets all affirm Shrewsbury Public Schools is a comparatively “cost-efficient” organization
- If S.P.S. were spending at the state average per pupil, our budget would have to increase by \$13.4M [$6270.7 \text{ pupil FTE} \times \$2,139$]

B. Fiscal Year 2018 Budget: Impact of Potential Reductions

SPECIFIC STATEMENT OR QUESTION:

Will the Committee hear a report on the impact of potential reductions to the Fiscal Year 2018 Budget.

BACKGROUND INFORMATION:

1. Dr. Sawyer's recommendations for potential reductions to the FY18 Budget plan were presented at the previous meeting.
2. A panel of principals will discuss the impact of these potential reductions on the school program.

ACTION RECOMMENDED:

That the Committee accept the report and take whatever steps it deems necessary in the interests of the Shrewsbury Public Schools.

C. Fiscal Year 2018 Budget: Public Hearing**

MEETING DATE: 3/29/17

SPECIFIC STATEMENT OR QUESTION:

Will the School Committee hear feedback from the public regarding the Fiscal Year 2018 Budget?

BACKGROUND INFORMATION:

1. Per state law, the School Committee must hold at least one public hearing on the proposed School Department budget. The first public hearing was held on March 1, 2017.
2. At the meeting on March 15, 2017, Dr. Sawyer presented a set of recommendations for potential budget reductions that were prioritized by tiers to illustrate what was recommended to be cut from the budget plan, depending on the level of funding available.
3. This public hearing is the second on the Fiscal Year 2018 Budget.

ACTION RECOMMENDED:

That the School Committee hear feedback from the public regarding the Fiscal Year 2018 Budget.

A. Superintendent's Goals: Vote to Approve

SPECIFIC STATEMENT OR QUESTION:

Will the Committee vote to approve the Superintendent's Goals for the 2017 calendar year?

BACKGROUND INFORMATION:

1. In 2016, Committee members and Dr. Sawyer changed the timetable so that the Superintendent's Performance Evaluation could be done at the end of the calendar year going forward. The proposed Superintendent's Goals (enclosed) are to be completed by the close of the 2017 calendar year.
2. To help refine the goals, Dr. Sawyer sought the Committee's guidance regarding areas of focus they felt would be most beneficial for the district at the meeting on March 15, 2017.

ACTION RECOMMENDED:

That the Committee vote to approve the Superintendent's Goals for the 2017 calendar year.

Re: Proposed Goals for 2017

After careful consideration of your feedback at our last meeting and thinking about how I might best focus my efforts on meaningful goals, I am proposing the following for your consideration and approval.

Student Learning S.M.A.R.T. Goal

By the end of 2017, at least 80% of students in the Class of 2018 will report that they have an improved understanding of how issues related to college financing and debt might affect them in the future.

Potential actions to achieve this goal:

- Research of key ideas to convey to students
- Collect baseline data of understanding of key concepts related to these topics
- Work with various professional personnel and student leaders at SHS to determine the most efficacious ways to provide information that improves students' understanding of the issues and the ramifications of taking on significant college debt
- Utilize various communication channels to engage with students and parents to communicate these ideas and build understanding, including social media
- Collect data to determine whether goal was achieved
- Consider ways in which financial literacy education on this topic could be included in the strategic planning process so that it becomes systematic in the future

Professional Practice S.M.A.R.T. Goal

Coordinate the creation of a new set of strategic priorities for the school district that will be approved by the School Committee by the end of 2017.

Potential actions to achieve this goal:

- Utilize information from the previous strategic plan, the work of the Innovation in Learning Study Group, and the Portrait of a Graduate Study Group, and other sources regarding current, best practices in education to create potential areas of focus for the successor plan
- Work with the School Committee and various existing groups and teams to define the process to be used to create the new strategic priorities and the timeline for this work
- Determine the best ways to seek input from stakeholder groups so as to ensure the new strategic priorities represent a shared community vision
- Work with district leaders, especially the new Assistant Superintendent for Curriculum, Instruction & Assessment, to coordinate the various phases of determining the new strategic priorities
- Utilize various communication channels to engage stakeholder groups in the development of the new strategic priorities
- Collaborate on the drafting of the new document and the presentation of the recommended new strategic priorities to the School Committee for approval

III. Superintendent's Report

Dr. Sawyer noted a number of Shrewsbury Public School events and student accomplishments including:

- Robotics was awarded the Engineering Inspiration award at the UNH tournament
- Five Shrewsbury High School (SHS) students qualified for the state science fair
- Oak Middle School Science Olympiad finished 8th in the state tournament, and the JV finished 6th
- Many visual arts students earned awards at Anna Maria College Art Competition and Boston Globe Art Competition, plus many were chosen to exhibit pieces at Worcester Art Museum for Youth - Art Month and in a photography exhibition at Shrewsbury Federal Credit Union
- the SHS competition play moved on to the state semifinals on Saturday
- Speech and Debate had many students qualify for nationals and continues to place in top ranks of each tournament, including hosting the Mardi Gras tournament, the largest in the state, and also coming in second place

- SHS Student Council the won Silver Award for Excellence at the state conference
- the Cheerleaders won the League title and also finished second in districts and fifth in the state
- SHS Student Julia Schaefer won state individual all around, floor exercise, and vault titles in gymnastics
- SHS Boys hockey won the league and district titles, and was currently competing in the final four for the right to play in the state final this weekend
- the SHS Spring musical would be this weekend: *How to Succeed in Business Without Really Trying*

IV. Time Scheduled Appointments:

A. Student Recognition: State Gymnastics Champion

Shrewsbury High School senior Julia Schaefer was rescheduled to be recognized at the School Committee meeting on March 29, 2017.

V. Curriculum

None.

VI. Policy

A. Charter & School Choice Attendance: Report

Mr. Collins advised that this was an annual report that would cover enrollment and finances related to Charter Schools, School Choice, and Virtual Schools. Information was provided on Charter School enrollment history, enrollment by grade, and enrollment by school; tuition, aid, and net cost history; and preliminary FY 2017 Tuition and Reimbursements. Mr. Collins noted that the state did not fully fund the Tuition Aid account this year, and that state reimbursement would only meet 59% of the calculated amount based on their formula.

Mr. Collins provided School Choice history that included information on enrollment (for incoming choice pupils and choice pupils at other districts); the number of students and associated tuition for both sending and receiving students; sending students by grade level for 2015-16; receiving students by home district for 2016-17; and FY 2017 sending students by destination district and grade level. While discussing FY 2017 sending students, Mr. Collins noted that two Full Day Kindergarten (FDK) students may have elected school choice because of an inability to access FDK in Shrewsbury, that five students enrolled in Virtual Schools (which are a subset of School Choice), and that the expected tuition cost for all 23 students was \$131,975.

Mr. Collins closed by noting that Charter School enrollment and School Choice enrollment are both declining, that the state is currently not fulfilling its reimbursement commitment, that the estimated net cost to the district for both was \$819,915, and that the recommendation for 2017-2018 was to NOT open new seats for School Choice students due to space limitations.

The Committee commented on parents' right to choices in education for their students, budget concerns around Charter Schools and School Choice, and the importance of SPS staying competitive to retain students. Dr. Sawyer also noted the importance of creating a competitive environment at SPS to retain students and reduce the outflow of out-of-district tuition dollars.

B. School Choice: Public Hearing

The public was provided with an opportunity to provide feedback to the Committee and administration on the topic of the potential for participation in interdistrict School Choice in the 2017-2018 school year. One community member noted his opposition to School Choice because he felt it could result in lost opportunities and benefits for students who are Shrewsbury residents. One community member advised that he has children who went to SPS, then charter schools, then returned to SPS, and he believed that SPS offers the best combination of academics, environment, and sports.

Ms. Fryc noted that a vote on School Choice was scheduled for March 29, and requested that interested parties submit feedback in the interim, and Dr. Sawyer added that the recommendation for 2017-2018 is to refrain from opening any new seats for School Choice.

VII. Finance & Operations

A. Financial Projections Subcommittee: Report

School Committee members Dr. B. Dale Magee and Mr. John Samia are members of the Financial Projections Subcommittee. Dr. Magee advised that this was his second report, and that it would address *Costs*. Dr. Magee's presentation included information on revenues; inflation (noting that increases of three to four percent yearly are reasonable in the education sector, and that SPS per pupil costs are lower than four-fifths of districts in Massachusetts); Consumer Price Index components; and labor intensive fields (like education). Dr. Magee noted that school budgets contain different inflation rates for teachers (whose salaries make up 45% of the operating budget); special education (with inflation and volatility issues); and health care (which is part of the Town Appropriated budget, but increases here leave less funding for our public schools). In a discussion on future pressures, Dr. Magee advised that maintaining class sizes puts SPS in a higher inflation category than the CPI; Special Education services are high inflation and largely mandated; health insurance increases will crowd out funding for school services; and that all these items will increase by more than 2 ½%, more than the CPI, and more than education as a whole.

Committee members noted that: SPS is well run and fiscally responsible; out of district special education costs are extremely volatile; teachers can't be outsourced; per pupil spending is in the bottom 20% of the state; SPS step salary plan is comparable to many other districts; the student population is diverse; and following students' progress after graduation is important.

Dr. Sawyer thanked Dr. Magee for the report, noted that our teacher salary system is fair and comparable to other districts, and advised against adopting any policy that would keep teacher pay as low as possible because over time the quality of the teaching force would decline.

B. Fiscal Year 2018 Budget: Recommended Reductions

Dr. Sawyer and Mr. Collins advised that they would be presenting recommendations for a FY 2018 Budget Reduction Plan to address the difference between the initial level service budget proposed in January by Dr. Sawyer, and the funding estimated to be available per the Town Manager's initial budget recommendation. Dr. Sawyer presented information on the FY 2018 current budget status, which indicates a budget gap of \$2,483,917, but noted that this number could change based on updated local revenue and state aid projections.

Dr. Sawyer noted that SPS strove to identify reductions to close the gap, while minimizing the negative impact on students and staff, and added that the reductions would be presented in tiers that were prioritized to illustrate what was recommended to be cut based on the level of funding available.

The following Tiers were described in detail:

Tier 1: Budget Adjustments/Refinements	Total Reductions: \$1,209,133
Tier 2: Reductions in Equipment, Materials & Services	Total Reductions: \$306,500
Tier 3: Reductions in Staffing & Educational Programming	Total Reductions: \$463,784
Tier 4: Reductions in Staffing Affecting Student Support & Class Size	Total Reductions: \$229,500
Tier 5: Reductions in Staffing Affecting Class Size	Total Reductions: \$275,000

Grand Total: \$2,483,917

A fiscal overview of the Reduction Plan by Tier was presented in multiple formats, and the \$2,483,917 in recommended reductions was also presented by category. Dr. Sawyer went on to recommend some new positions for inclusion in the budget regardless of the level of cuts, noting they were necessary to address growing enrollment and mandated services. He also discussed how potential reductions would negatively impact students, staff, and operations, and advised that if all reductions were made, it would result in a total loss of 29.2 FTE positions. Dr. Sawyer discussed next steps, summarized key points, thanked the District Leadership Team for their work on the recommendation reduction plan, and closed the report by offering two essential questions:

- 1) How deep will the reductions for next year need to go?
- 2) What will our community do to solve the structural funding dilemma that further jeopardizes the future quality of public education in Shrewsbury?

The Committee offered comments and expressed concern about the ongoing decline in resources that results from not providing level service budgets every year, and the frustration associated

with the predictable difficulties associated with each year's budget. Ms. Fryc noted that there would be a Public Hearing on Budget at the March 29 meeting and that the Committee hoped to hear from the community.

A. Superintendent's Goals: Discussion

Dr. Sawyer noted that the timetable for the Superintendent's Performance Evaluation had shifted to a calendar year approach, and that he was looking to the Committee for feedback and guidance to assist in setting his student learning and professional practice goals for 2017. Committee members suggested that Financial Literacy could be a potential student learning goal topic, and that metrics could be utilized to track SPS students after they graduate. Dr. Sawyer advised that he would utilize the feedback when crafting and refining his goals.
